

A DAY OF THANKS NOV. 26.

Governor's Proclamation Reminds the People of California of their Blessings.

HELP RECEIVED IS AMONG THE GREATEST

The Disaster of April Has Called Forth So Much True Sympathy That For It, We Should Give Thanks.

SACRAMENTO, Nov. 12.—Gov. Pardee has issued his Thanksgiving proclamation, as follows: "At the end of one of the most memorable years in their history—the year which has witnessed one of the greatest disasters of modern times—the people of California have much for which to return thanks to the Giver of all blessings. Although San Francisco and other cities were almost destroyed by fire and earthquake, the general prosperity of the state has remained unaffected. Even the cities which suffered from the stroke of April 18th are being rapidly restored, and moreover, that misfortune was made the occasion for one of the greatest demonstrations of brotherly kindness the world has ever seen. For the world-wide sympathy which was manifested with us in our distress, gratitude is due to the people of other states and of foreign countries and most of all to Him who causes the heart of man to feel for a brother in need. "By means of the help so graciously extended, suffering was soon relieved and with the gradual restoration of their industries, our people are now facing a future bright with hope. In recognition of these and other blessings it is proper that the annual custom of setting apart a day for Thanksgiving and praise should be followed. "Now, therefore, by the authority of law invested in me, I, George C. Pardee, as governor, designate Thursday, the 20th day of November, 1906, as a day of general Thanksgiving to Almighty God. "In testimony whereof, I have hereunto set my hand and caused the great seal of the state to be fixed, at the capital, in the city of Sacramento, this 10th day of November, A. D. 1906. (Signed) GEORGE C. PARDEE, Governor. "By the governor, C. F. Curry, Secretary of State."

New York Election Affairs.
NEW YORK, Nov. 12.—Formal application on behalf of the candidates on the Republican ticket at the election for the state legislature, held today in New York county, was asked today in the Supreme court by A. S. Gilbert. Gilbert, who is a law partner of Attorney General Meyer, is chairman of the law committee of the state Republican committee.

Mexican Railroad Averted Strike.
LAREDO, Tex., Nov. 12.—The strike of mechanics on the National railroad of Mexico at this point has been amicably settled and the men will return to work tomorrow. The company agreed to increase the wage scale 25 cents a day.

PHELAN AND RED CROSS

Ex-Mayor Is New President of State Branch.

He Defends the System and Produces Figures of Funds Handled.

SAN FRANCISCO, Nov. 12.—Mrs. John F. Merrill declined the presidency of the California branch of the National Red Cross society at its annual meeting today, and James D. Phelan was elected president of the organization. Judge W. W. Morrow, the retiring president, was prevented from being present by ill health. "President Phelan made a strong defense of the organized relief work carried on in this city. He declared that investigators from Boston and New York had come in a camping spirit to look over the relief operations and had been convinced that the methods followed here were not only satisfactory. He read a general report on what had been done with the funds for relief. The total net receipts from April 18th to Nov. 10th were given as \$6,204,063.83, and the expenditures have been \$4,443,592.00, leaving a balance of \$1,760,471.83. Subscriptions from all sources were given as \$9,120,553.18, and the balance of the relief fund was put at \$3,192,901.32.

SHOT AND KILLED SISTER'S BETRAYER

Son of Portland Physician Pleaded In Vain and then Killed the Seducer.

PORTLAND, Ore., Nov. 12.—Orlando Murray, son of an East Side physician, today shot and killed Lincoln C. Whitney at the home of the latter's sister at East Third and East Harrison streets, and then boarded a car and went to the sheriff's office, where he surrendered himself.

In a statement to the police, young Murray said he killed Whitney because of the latter's persistent refusal to right the wrong done Murray's sister. Young Murray said he killed Whitney after pleading with him for three-quarters of an hour to right the wrong done Miss Murray.

In the room at the time of the shooting were Mrs. Porter and her young daughter, both of whom, when realizing the intent of Murray, rushed between the men to prevent Murray firing, but he pushed them aside and fired a bullet into Whitney's body, killing him instantly.

STANDARD OIL CO. WILL BE ATTACKED

Government Believed to Intend Prosecution Under the Sherman Anti-Trust Law.

WASHINGTON, Nov. 12.—While no authoritative statement could be obtained in regard to the matter, there is good reason to believe that the government has decided to institute proceedings against the Standard Oil company under the Sherman anti-trust act. It is with a view of obtaining an order of the court dissolving the company as it now exists and restoring to each of the seventy-five or eighty constituent companies its proportionate share of the stock and also compelling the observance of the law prohibiting them from entering into any contract, agreement or understanding with each other with a view to maintaining prices of oil.

MANILA BOND ISSUE OFFERED TO BUYERS

Two Million Dollars, Four Per Cent Securities, to Provide New Sewerage.

WASHINGTON, Nov. 12.—The bureau of insular affairs of the war department has invited bids for a \$2,000,000 issue of 4 per cent bonds of the city of Manila. Bids are to be opened December 10th. By the act of congress these bonds are exempted from taxation. The issue is to provide funds for the purpose of continuing the work of constructing an adequate water supply and sewerage system for the city of Manila, for which contracts have been let and which is now well under way. Each bid must be accompanied by a certified check of 3 per cent of the actual amount of the bid.

YOUNG LAWYER HELD FOR BANK SWINDLE IN NEW ORLEANS

NEW ORLEANS, Nov. 12.—Admiral charging attempt to defraud the Commercial Germania Bank and Trust company out of \$47,000 and also charging the uttering of a worthless check for \$16,320, were today filed against Fred Biebel, Jr., a young attorney. He is one of six young men whom the police arrested last Saturday for recent bank swindling. Two others are held up witnesses.

SIX KILLED BY BOILER

Fearful Accident in Shops at Cleveland.

End Blew Out of Boiler and Steam Scalded Victims to Death.

CLEVELAND, O., Nov. 12.—Six men were killed and five seriously injured today when a boiler in the power house of the Lake Shore and Michigan Southern railway, in Cottonwood, a suburb of Cleveland, blew up. The men were working close to the boiler, building the foundation for a dynamo, when the explosion occurred. They were all in the mouth of a subway, facing the end which blew out of the boiler, and were scalded to death by the immense volume of steam which shot out.

The dead: MAX CRAWFORD, electrician; ALBERT BLOOM, carpenter; A. P. LATTA, pipe fitter; PAUL O. LANCIONI, laborer; JULIUS WAEDER, pipe fitter. Fatally scalded: Fred K. Kerkman, millwright foreman; W. A. Davis, electrician.

Engineers at the power house say the explosion was due to the formation of a "mud ring" in the filtering apparatus, which clarified the water before its passage into the boiler. The shock of the explosion was heard for two miles.

Conferring About Railway Rates.
WASHINGTON, Nov. 12.—About forty prominent railway men, representing the freight departments of their respective roads, were present at the interstate commerce commission's offices today and conferred with Commissioner Clark on the subject of posting rate schedules or tariffs. It is expected the conference will continue several days.

CREMATED IN TRAIN WRECK

Forty-seven Immigrants Met Awful Death on Baltimore & Ohio Railroad in Indiana.

FORTY-FIVE BURNED BEYOND RECOGNITION

Second Section of Train Crashed Into Freight Owing to Blunder of Employee—Pitiful Scenes at Chicago.

CHICAGO, Nov. 12.—More than 400 passengers on an immigrant train on the Baltimore & Ohio railroad were killed or injured in a collision today between a passenger train and a freight near Woodville, Ind. One hundred and sixty-five passengers were on the train, and of these forty-seven were killed or injured or were burned to death in the fire which broke out in the wreckage immediately after the collision. The names of all the dead will probably never be known, as forty-five of the bodies were consumed in the flames or were so badly burned that identification is impossible. Thirty-eight people were injured and several of these will die. Eighty others escaped unhurt, but lost nearly all their baggage and clothing.

Somewhat Blundered.
The disaster was caused by a blunder of some employee of the railroad company, but just where the blame lies has as yet not been determined. The passenger train, which was loaded with Russian Jews, Serbians and Poles, all recent arrivals in this country and bound for Chicago, was in the Northbrook section of the second section of a freight train from Baltimore. The engineer of the freight train, No. 96, on instructions received at McCool, Ind., waited at a siding at Babcock, Ind., to allow the immigrant train to pass.

In two sections. One report is that the engineer of the freight train had not been informed that the passenger train was running in two sections, the other is that the first section of the passenger train carried no lights or signals of any kind indicating that a second section was close behind. As soon as the first section of the immigrant train had passed the switch at Babcock the freight train, in charge of Engineer Burke and Conductor Moser, started eastward. A light snow was falling, which increased the darkness of the early morning, and as the freight train entered the west of Woodville, the second section of the immigrant train came in sight a short distance away, tearing toward Chicago at the rate of forty miles an hour.

Then Came the Crash.
The trains came together with unslackened speed, and in the crash six passenger coaches and several freight cars were knocked into kindling wood, and together with the locomotives, went rolling down the track for an unknown distance. Fire broke out almost immediately in the wreckage and, although a number of the injured were saved by the desperate efforts of the train crew and surviving passengers, the greater part of those who were pinned down in the debris were burned to death.

Burned in Plain Sight.
The flames spread through the wreckage so rapidly that it was impossible to save a number of people who were but slightly hurt, but were held fast by timbers. These were burned in plain sight of those who stood around the scene of the disaster, utterly unable to render assistance. The fire continued until all of the shattered cars were entirely consumed and of the forty-seven people whose death followed the collision forty-five were burned to ashes.

Relief trains were at once sent out from South Chicago and from Valparaiso, Ind., with every available physician and every possible aid was given to the injured. A large number of relatives of the passengers and the ill-fated train were in Chicago, awaiting their arrival, and when the report of the catastrophe was received the scenes around the Baltimore & Ohio station were harrowing. Men were there who had come to this country to escape the massacres in Russia, and who, after months of hard work, had saved enough to pay the passage of members of their families, and their grief when they became aware that the foreigners became so excited that they attempted to attack station attendants whose uniforms led them to believe they were employed by the Baltimore & Ohio road.

Found His Blind Wife.
Among the wounded who were brought to Chicago was Mrs. Chize, who had come from Warsaw to meet her husband, who had been working here for six months. Mrs. Chize is blind and her husband recognized her as she was being carried through the crowd by two policemen. Before the officers could stop him, he fell across the stretcher, carrying it to the ground, and kissed his wife repeatedly. She recognized his voice, and they clung to each other so desperately that it required the efforts of both policemen to force them apart. Chize struggled so fiercely that it was necessary to place him under arrest. He was released after being taken to the station. Others whose relatives were among the injured begged to be allowed to take them to their homes, but the police were obstinate and all of the injured were taken to the hospitals, where it is believed they will receive better care than their friends might be able to give them. At the hospitals tonight it was said that it would for some time be impossible to predict the result in several cases of the injured.

FINE WORK DONE BY A. F. O. F. L.

Twenty-sixth Annual Convention Being Held in Minneapolis Will Last Ten Days.

PRESIDENT GOMPERS ON LABOR PROBLEMS

Eight Hour Day and No Wage Reduction Are Emphasized By Him—Financial Reports Show Good Condition.

MINNEAPOLIS, Minn., Nov. 12.—The twenty-sixth annual convention of the American Federation of Labor opened in Minneapolis today with 300 delegates, including several from the British Trades Union congress and about twenty women present. Following an address by President Gompers, the credentials committee presented its report. This led to a resumption of the all-controversy between the plumbers and steamfitters. The plumbers entered a protest against the seating of the steamfitters' delegates and will take the matter before the executive committee. "Financially as well as otherwise, the American Federation of Labor has had a prosperous year," says Secretary Frank Morrison in his report for the year ended September 30th. The year was closed with \$113,540 in the treasury. The total receipts from all sources are \$217,813.18 divided as follows: Per capita tax, \$108,040; supplies, \$12,887; American Federationist, \$23,012; International Typographical union assessment, \$32,618; defense fund, \$2,050; premium on bonds, \$15,550; premium on bonds, \$736. The expenses are \$218,540, as follows: From general fund, \$124,818; American Federationist, \$20,668; defense fund, \$18,413; premium on bonds, \$430; International Typographical union assessment, \$23,012.

OUR CRUISER STOOD TEST California's Fourth Trial Was Satisfactory.

Four Hours Run Under Forced Draft Proved Her Better Than Required.

SAN FRANCISCO, Nov. 12.—After three failures, the new cruiser California, recently completed at the Union Iron Works, today successfully underwent the four hours endurance run, the last and final test before her acceptance by the government. The new cruiser behaved splendidly, came up to every requirement and exceeded her contract speed. It was the vessel's fourth attempt at the endurance run, parts of her machinery proving defective in the trial in the Santa Barbara channel some time since, and the port engine breaking down in two previous trials here.

With the naval trial board, headed by Captain Giles B. Harber, on board, and accompanied by the torpedo boat destroyer Paul Fones, the California sailed out of the harbor this morning and for four hours steamed under forced draft of the hulls. Her best speed was 22.32 knots and her average speed for the four hours 22.22. The cruiser's contract is 22 knots. The naval trial board and representatives of the builders are enthusiastic over the showing made by the California.

THAT HATPIN IS A NEEDLE

Explanation of the Death of a Scranton Man.

He Embraced a Girl and Big Needle Was Forced Into His Body.

SCRANTON, Pa., Nov. 12.—Tonight after a day spent in investigating the death of Thomas Dougherty of Dunmore, who was killed by being pierced in the heart with a long needle, the local police and Coroner Phillips decided to withdraw the warrant that had been issued for Knits Barker, the girl who was suspected of having caused Dougherty's death.

The authorities are of the opinion that the girl is innocent of murderous intent. She says that she had been mending her brother's clothing with a long needle, used hereabouts in mending miners' heavy outclothing, and that on going down town in the evening she struck the needle in the bosom of her dress. Dougherty, who had been her sweetheart, hailed her and asked her to take a walk with him. He attempted to embrace her and the point of the needle that was in her dress caught in his vest, while the blunt end rested against her breast. In the embrace, the needle was forced into his body, through the fifth rib, and into the cavity between the pericardium and the heart. Hemorrhages resulted.

WASHINGTON, Nov. 12.—The Supreme court of the United States will take a recess from Monday, November 19th, to Monday, December 3d, over the Thanksgiving holidays.

RAILROADS INCREASE WAGES

Delaware, Lackawanna and Western Company Has Conceded Demands.

TEN-HOUR DAY AND MUCH LARGER PAY

Eric Firemen Probably Will Strike and the Engineers on that Road Are Formulating New Demands.

NEW YORK, Nov. 12.—The scale of wages and length of the work day, were the issues at various meetings today of grievance committees, representing the engineers and firemen of several of the railroads centering at New York. D. L. and W. Pays More. At a conference today between President W. H. Truesdale, of the Delaware, Lackawanna and Western, and a committee of the Brotherhood of Locomotive Engineers, including Grand Chief Warren H. Stone, the engineers were granted a ten hour day and increase in wages aggregating for the 9000 employees from \$30,000 to \$35,000 a year. Committees representing the engineers of the New York, New Haven and Hartford and the New York Central railroads, met to discuss the demands they are to make on the railroads for higher wages and shorter hours of labor. Eric Firemen May Strike. The poll of the locomotive firemen of the Erie for the purpose of determining whether or not to resort to a strike, in an endeavor to enforce their demands, has resulted in almost unanimous vote for a strike, so far as returns have been received. The adjustment committee of the engineers is formulating a set of demands to be made upon the Erie, irrespective of the demands of the firemen. The engineers have a contract with the Erie, which does not expire for several months, but the new demands are being formulated as a basis for a new contract. The position of the Erie railroad in the present situation was outlined today in a message from J. C. Stuart, general manager, who is in the west on an inspection trip. Other New York Roads. Grand Master Harahan said tonight that he and two committees of the Brotherhood of Locomotive Firemen would have a conference tomorrow with the officials of the New York Central and the New York, New Haven and Hartford.

HUFFALO, N. Y., Nov. 12.—Henry H. Barry, chairman of the committee of the local lodge of locomotive firemen, who returned from New York, stated that it is expected that the demands of the men will be met in some way by the railroads. The fact that the Erie firemen have not struck as yet does not signify that they will not, as after the vote is taken it is referred to the Federation of Trainmen.

Caused a Sanction.
An interview with E. B. Harris, president of the joint protective board of the Brotherhood of Locomotive Firemen, on the Lake Shore, published in afternoon papers, caused a stir in railroad circles here, and an exchange of telegrams in which Harris repudiated the interview. Harris was made to say that in the event of trouble on the Lake Shore, the firemen stood ready to fill the places of the engineers.

Universal Eight-Hour Work Day.
"A view of the great productive power of our people, the great concentration of industry and the consequent use of machinery and the consequent power in industry, the thought that always passes home to the toiling masses must inevitably be a reduction of the hours of labor to the establishment of a general enforcement of the normal work day of eight hours. "There can be neither justification nor excuse in our time for longer deferring the ideal and practical universal work day of eight hours. Neither industry nor economy requires a longer work day. As a matter of fact, the history of industry demonstrates beyond doubt that an eight-hour work day brings in its wake greater industrial development and commercial expansion, a higher and a better standard of living for the whole people. "I recommend that a special committee of this convention be created for the purpose of giving its special attention to this subject for a general enforcement of an eight-hour work day. "No Wage Reduction. "Today labor is very generally employed. From the authentic reports received at our office the state of unemployment would indicate that whereas for the year 1905 the unemployed was about 3 per cent, yet from the indications for the present year it will be about 2 1/2 per cent. Of course, so long as there is one wage-cure unemployed, through no fault of his own, so long is there a great wrong from which he suffers, and just so long will be the mission of the trade union movement to right it. "In this world of ours, and especially in our own country, with the world-famous fertility and extent of our land, the magnificent ingenuity of our people, and particularly the tremendous energy and industry of our workers, there should not be any workers who are unemployed. "Some have taken action to their credit and loudly proclaimed that they are the cause for the better general conditions of employment of the working people of our country. Without discussing the hypothesis upon which they base these claims, we assert and emphatically re-affirm that whatever improvement in a material, moral, social and political way has come to the toiling masses of America, is due to their own efforts in their more thorough organization, their higher intelligence and their positive determination to aid and stand by each other in the contention and struggles for the common uplift. "It was but a few years ago when the working people of our country were confronted with a condition similar to that which was previously repeatedly presented to the labor in similar situations. Then we acquiesced or consented to the policy presented to us by the representatives of the capitalists of industry, we would have experienced all the poverty, misery and suffering incident to lack of employment and a constantly decreasing opportunity for employment resultant from reductions in wages, one following close upon the other. "It is due to the firm and unequivocal declaration of America's organized workers, and their positive repudiation since, that wage reductions will be resisted to the uttermost, that we have averted the usual industrial crisis and emerged from it with greater industrial and commercial activity than ever before. "At present we are confronted with no immediate danger or threat that the employers of labor contemplate reductions in wages. There is not now even an excuse for such a course. It, therefore, all the more commends itself to our judgment that during this year of consummate industrial tranquility and more general employment of our people, that we write on our banners, beside the watch words and slogans which have carried the toilers along the road of progress to victory, that which for ages has been the misbegotten work of our social progress. No reduction in wages for American labor; we will resist to the uttermost! "Chinese Immigration. "That there have been a large number of Chinese coolies and laborers who have entered both the United States and its possessions since the issuance of the executive order last year, is manifest. In addition, it may be interesting to know that the commission general of immigration testified before a congressional committee that he was directed to enforce the Chinese exclusion law with less rigor. "It is now currently reported that there is being negotiated a treaty between the United States and China with a view of modifying and repealing existing law. Of course, it is not the intent or purpose of our Chinese exclusion law to bar the coming of house, file students, business or professional men or of the desire to travel for pleasure or information. Experience has, however, demonstrated the necessity for such safeguards from immigration, that the essential feature for the exempt classes who may come to our shores, it that they shall clearly show that they do not belong to the excluded class—the coolies and laborers."

LOS ANGELES ANNEXATION

Sixteen Mile Strip Taken In By Six Votes.

Ascot Park Is Doomed—San Pedro Is the Next Objective Point.

LOS ANGELES, Nov. 12.—By the close vote of six in its favor, the plan to annex a large territory lying between this city and San Pedro was approved today in a special election by the voters of the city and country districts. To pass, the measure had to be favored by a plurality of both city and country, counted separately. In the city, the plan carried seven to one, but in the annexed territory there was but six votes plurality.

The annexed territory includes Ascot Park, the racing plant of the Los Angeles Jockey club, and by the election the park is brought under the jurisdiction of the city ordinances, which prohibit pool selling. Representatives of the racing interests are said to have made a great endeavor to defeat annexation today. What their next move will be is not known. When the returns of today's election are properly certified and passed upon by the state authorities, a strip one-half mile wide and about sixteen miles long will become a part of Los Angeles city, making San Pedro and Los Angeles adjoining cities. This is the first step in a plan to annex San Pedro harbor to the city of Los Angeles. "Tried to Kill Rembrandt." LONDON, Nov. 12.—A dispatch received here from St. Petersburg says that a dispatch from Irkutsk, Siberia, reports that an unsuccessful attempt was made today to kill the governor, the famous General Rembrandt, by a bomb. The general was not hurt. The bomb thrower was captured. He refused to give his name.

RAILROADS INCREASE WAGES

Delaware, Lackawanna and Western Company Has Conceded Demands. Eric Firemen Probably Will Strike and the Engineers on that Road Are Formulating New Demands.

NEW YORK, Nov. 12.—The scale of wages and length of the work day, were the issues at various meetings today of grievance committees, representing the engineers and firemen of several of the railroads centering at New York.

Harris was made to say that in the event of trouble on the Lake Shore, the firemen stood ready to fill the places of the engineers.

Universal Eight-Hour Work Day. A view of the great productive power of our people, the great concentration of industry and the consequent use of machinery and the consequent power in industry, the thought that always passes home to the toiling masses must inevitably be a reduction of the hours of labor to the establishment of a general enforcement of the normal work day of eight hours.

There can be neither justification nor excuse in our time for longer deferring the ideal and practical universal work day of eight hours. Neither industry nor economy requires a longer work day. As a matter of fact, the history of industry demonstrates beyond doubt that an eight-hour work day brings in its wake greater industrial development and commercial expansion, a higher and a better standard of living for the whole people.

I recommend that a special committee of this convention be created for the purpose of giving its special attention to this subject for a general enforcement of an eight-hour work day. No Wage Reduction. Today labor is very generally employed. From the authentic reports received at our office the state of unemployment would indicate that whereas for the year 1905 the unemployed was about 3 per cent, yet from the indications for the present year it will be about 2 1/2 per cent. Of course, so long as there is one wage-cure unemployed, through no fault of his own, so long is there a great wrong from which he suffers, and just so long will be the mission of the trade union movement to right it. In this world of ours, and especially in our own country, with the world-famous fertility and extent of our land, the magnificent ingenuity of our people, and particularly the tremendous energy and industry of our workers, there should not be any workers who are unemployed. Some have taken action to their credit and loudly proclaimed that they are the cause for the better general conditions of employment of the working people of our country. Without discussing the hypothesis upon which they base these claims, we assert and emphatically re-affirm that whatever improvement in a material, moral, social and political way has come to the toiling masses of America, is due to their own efforts in their more thorough organization, their higher intelligence and their positive determination to aid and stand by each other in the contention and struggles for the common uplift. It was but a few years ago when the working people of our country were confronted with a condition similar to that which was previously repeatedly presented to the labor in similar situations. Then we acquiesced or consented to the policy presented to us by the representatives of the capitalists of industry, we would have experienced all the poverty, misery and suffering incident to lack of employment and a constantly decreasing opportunity for employment resultant from reductions in wages, one following close upon the other. It is due to the firm and unequivocal declaration of America's organized workers, and their positive repudiation since, that wage reductions will be resisted to the uttermost, that we have averted the usual industrial crisis and emerged from it with greater industrial and commercial activity than ever before. At present we are confronted with no immediate danger or threat that the employers of labor contemplate reductions in wages. There is not now even an excuse for such a course. It, therefore, all the more commends itself to our judgment that during this year of consummate industrial tranquility and more general employment of our people, that we write on our banners, beside the watch words and slogans which have carried the toilers along the road of progress to victory, that which for ages has been the misbegotten work of our social progress. No reduction in wages for American labor; we will resist to the uttermost! Chinese Immigration. That there have been a large number of Chinese coolies and laborers who have entered both the United States and its possessions since the issuance of the executive order last year, is manifest. In addition, it may be interesting to know that the commission general of immigration testified before a congressional committee that he was directed to enforce the Chinese exclusion law with less rigor. It is now currently reported that there is being negotiated a treaty between the United States and China with a view of modifying and repealing existing law. Of course, it is not the intent or purpose of our Chinese exclusion law to bar the coming of house, file students, business or professional men or of the desire to travel for pleasure or information. Experience has, however, demonstrated the necessity for such safeguards from immigration, that the essential feature for the exempt classes who may come to our shores, it that they shall clearly show that they do not belong to the excluded class—the coolies and laborers."

skirt trimmed with sixty tailored tucks. Exquisite crea-
tions copied from the latest London models and priced in
our usual modest manner. \$22.50.**\$15 Tourist Coats \$12**"The Overland" model—a new, striking effective long
coat made of double check heavy English tweeds—in light
gray, oxfords and brown effects—collar and edge buttons of
contrasting velvet. Double yoke and sleeves satin lined.
There's a jaunty look to these garments that strongly
contrasts the clumsy look so often found in coats of this
nature.**We Continue the Demonstration of Nemo Corsets**For another week. Mrs. Craig, the expert corsetiere, will show you the advantages of
"The Nemo." The one perfect fitting corset is "The Nemo."We call your particular attention to No. 200, the in-Curve Waist corset which is
made for medium figures. These corsets are constructed in the famous in-Curve Waist
shape. The feature of this shape is its winding lines.They are so made that they produce a tapering waist combined with a straight
front. This corset sells at \$2.25.

Nos. 312 and 314, the New Nemo Self-Reducing.

The improved self-reducing strap is tapered and lengthened at the bottom to attach
garters and to hold in superfluous flesh.The relief strap is a tape under the self-reducing strap, supports the weight of
the abdomen. The above is only two of the many good features of these corsets. They
sell at \$3.50.

DAILY GRIND**Night in Jail Induces Two Men
to Pay Board Bills.J. Silvia and O. Vattoni, Want-
ed in Bakersfield, Pay Up
to Escape Sentence.It only took Joe Silvia and Otiva
Vattoni an over night's stay at the
county jail to get them to make up
their minds to pay board bills as an
alternative of answering charges of
defrauding an innkeeper. Silvia paid
\$6 and his companion parted with \$10.
The men were wanted in Bakersfield
for skipping out, leaving unpaid bills
behind them. They came here to go
to work, but a warrant got here first.
Officer Enos, the linquist of the police
force, was detailed on the case and lo-
cated his men within a few hours.
They denied their identity at first,
but in face of incontrovertible proof
admitted being the wanted men. Be-
fore Judge Briggs yesterday the pair
paid the indebted amounts and were
released in accordance with instructions
from Bakersfield.**Sam's Rejoicing.**
Because he was 45 years of age last
Sunday, Sam Buckstone launched his
house in an elaborate party and
was in the course of painting the town
when arrested by Officer Goehring. Mr.
Buckstone was confined in court yester-
day and explained why it all hap-
pened. As his first has brought him
before the notice of the court before
he was able to talk the judge into a
lenient frame of mind, being handed
out \$5 or five days.**Big Bunch of Wearies.**
The police court docket was princi-
pally filled up with a bunch of
cases who drifted into town on Sat-
urday night and Sunday. They were
given the usual dose of applied industry
in Sheriff Collins' establishment.G. Newton, L. Clark, W. Jones and
William Norton were caught at vari-
ous times by Officers Goehring and
Enos. They told wildly impracticable
stories of being unable to get work
anywhere, and were given ten days
each.R. A. Tinklenough is a chubby-
faced little German who admitted be-
ing economical with his energy. He
had not worked for several months,
being afflicted with that tired feeling.
With his companion, George Ohm, he
was arrested yesterday morning by
Officers McCall and Stevens. The two
were given ten days each.Harry Curtis is another who got
the same sentence. He was arrested by
Officer Goehring as a vagrant in
Chinatown. When taken by the po-
liceman, he made off and nearly es-
caped, but his wind gave out and the
officer caught up to him.George Newton, a disreputable char-
acter of the other side of the track,
was arrested by Policeman Enos and
will come up today. The fellow has
been up repeatedly before. His last
sentence was a twelve months' banter.
He left town, but came back again.Newton is well connected, but his peo-
ple have long since cast him off.
K. Oski was fined \$3 for riding on
the sidewalk.**SEATTLE PACKERS
COMPLAIN OF RATES**Great Northern and C. B. & Q.
Charge Too Much on Hogs
from Corn Belt.WASHINGTON, Nov. 12.—Meat pack-
ers in the state of Washington have
brought an action before the interstate
commerce commission against the North-
ern Pacific and the Chicago, Burling-
ton and Quincy railroads, alleging that
these railroads have raised the rates on
shipments of hogs from the corn belt
states to Seattle, Washington, to a fig-
ure that practically prohibits the ship-
ment of hogs west.The chief complainant is Frye &
Bruhn, Incorporated, operating at Seat-
tle, which concern alleged it would not
continue business except for the fact
that, having established an extensive
plant under favorable rates, it had ex-
pected for several years. The continued
existing high rates, this firm says,
would threaten it with bankruptcy.**FRENCH SHIP LOST
OFF TERRA DEL FUEGO**Crew Was Landed at Punta Arenas,
Chile, But Cargo Will Be Total
Loss.PUNTA ARENAS, Chile, Nov. 12.—
The French ship Duchess de Berry, from
Shields July 12th, for San Francisco,
struck a rock and foundered October
19th off the east coast of Staten Island,
south of Terra Del Fuego. The crew of
the vessel was landed here. The cargo
of the Duchess de Berry will probably
be a total loss.The Duchess de Berry belonged to the
Ocean Company, of Nantes. She was
built at Bordeaux in 1904, and was of
1041 tons net register.**BRIDGROOM'S MURDER
FOLLOWED QUICKLY UPON
AN ITALIAN MARRIAGE.**NEW YORK, Nov. 12.—Fifteen min-
utes after he had married Maria Kim-
stein in Brooklyn, Augustus Silvestri
20 years old, was fatally shot at his
home, where he was celebrating his wed-
ding. He died at midnight last night
at the Sweeney hospital, with his bride
at his side. The shooting was done by
six unknown Italians who entered the
room and started a row. It is sus-
pected that a rival instigated the mur-
der and the police are looking for this
man, who is known. Pedro Dapello, a
wedding guest, was seriously wounded
during the melee.**EMPEROR WILLIAM
HAS FULL CONFIDENCE
IN PRESENT CHANCELLOR.**BERLIN, Nov. 12.—Emperor William,
while dining with Chancellor Von Bue-
low Saturday, said to him in the course
of their conversation that the reports
of a coming change in the chancellorship
were nonsense. Prince Von Buelow,
his majesty added, continued to retain
his full confidence. The emperor yester-
day accepted the resignation of Min-
ister of Agriculture von Pöhlmann.
The provisional successor is Dr. von
Holtmann-Hellwig, the minister of the
interior.**VICE SETTLES
IN MADERA**Former Agent Is Sanguine of
Beating Case.Is Released on Bonds Furnish-
ed By Local Friends and
Resumes Business.MADERA, Nov. 12.—William R. Vice,
the former agent of the Union Pacific
railroad, who recently left this place in
the custody of officers to answer
charges of embezzlement, returned yester-
day at liberty on bonds furnished by
his friends, W. A. Griffith, Harry Fraser,
D. Alsop and R. H. Mace. He will re-
sume his business as collector. Vice is
sanguine of eventually getting off by an
appeal to the status of limitation.
When the case came up before Judge
Shortall in San Francisco, the court
stated that there was no apparent rea-
son for trying it as the prosecution
would probably fall through. This is
encouraging news to the friends of the
accused man, and they hope to see him
cleared within a short time.A marriage of interest to many Ma-
derans took place in Visalia when Mrs.
Nellie Sharr was united to A. J. Hon-
igberger. The groom is a well-known
business man of this place and his bride
has an equal number of friends who are
showing congratulations upon the pair.Mamuel Freitas, who works as an oil-
er at the Sugar Pine sawmill, lost one
of his feet in an accident there last
night. He was sitting on the top box on
the hand saw when his foot slipped and
ran into the circulating saw, severing it
in a ghastly manner.Amid a mountain of beautiful floral
tributes, the remains of the late Mrs.
R. F. Kendall were laid to rest yester-
day in the presence of a large gathering
of friends. The services were conducted
by the Rev. W. B. McElwee, an old
friend of the deceased.Considerable interest is centered
around the new gold strike northeast of
this town. A party left Madera yester-
day to look over the find.Miss Millie Amer has gone to San
Francisco.Saeon Vignolo was in town today
from Raymond.A. E. Fee and W. M. Mace returned
today from Fresno.Troons K and M of the United States
cavalry, who have been doing guard
duty in Yosemite valley during the
summer, came to town yesterday and
encamped near the court house. They
left this morning for San Francisco.They were under command of Major
Benson.Dr. A. H. Brats left this morning for
Sugar Pine, where he will reside as
residence doctor at the mills, succeeding Dr.
E. H. Reid, who will go to Carter's Tu-
olumne county. Dr. Brats has made a
host of friends in Madera, who will
regret his leaving, and who wish him
success in his new field.J. Chetwood came up from Fresno
today.Mrs. Lela Yokum went to Fresno to-
day.T. C. Townsend went to Sanger to-
day.V. B. Cobb was here today from
Bridgeport.A. E. Preciado went to Fresno this
afternoon.Cecil Westfall came down from Fres-
no flats yesterday and went to
Fresno.George A. Clark of the Tribune was
in Fresno Sunday on lodge business.Sam Ertle of Knowles has been
spending a few days here.George Harrison of Fresno Flats was
in town today.George T. Parsons of Fresno stopped
off here a few minutes today on his
way north.Mrs. Mary Thomas and Miss Ethel
Williams returned this morning from
a visit to Fresno.D. Dapello, wife and daughter, who
have been visiting A. E. Preciado and
family, left today for home.J. W. Schmitz was in town today
from his ranch.Mr. and Mrs. James Stapp returned
this morning from Fresno.Miss Theodora Benschall left this
morning for San Francisco.Al Sayre came up from Fresno this
morning, where he had been on busi-
ness.A. L. Speegle went to the hills in his
auto yesterday and shot quail to the
limit.Frank Vignolo was here today from
Mariposa after an absence of many
years.The supervisors met this morning to
caucus the vote at the last election.
Francis A. FFE has been admitted in
practice in the United States District
and Circuit courts.**FISH AND GAME
CONVENTION**Fresno Will Get Meeting Two
Years Hence.Censure of Fish Commission
Denounced By Fresno
Delegates.W. H. McIntosh, R. E. L. Cobb and
A. D. Ferguson are back from the
Monte Vista convention of the State
Game and Fish Protective association.
They went down with the hope of se-
curing the next convention for Fres-
no, but did not succeed in landing it.
Los Angeles securing the honor. How-
ever, Fresno has the promise of the
more important convention the next
legislative year.The convention got into a row over
a resolution censuring the Fish com-
mission and the Fresno delegates do
not hesitate to say that the conven-
tion had been backed for this purpose.
The principal changes in the fish and
game laws, as incorporated in the pro-
posed bill for introduction into the
next legislature, are:May limit on ducks reduced to 5 and
ducks to be put on non-sale list.Doves, open season, to be one month
only, August.Deer season to open 15 days later,
August 15th, closing as before, Octo-
ber 15th.Prout to open May 1st, close De-
cember 1st; none smaller than half
pound to be taken, and sale of any
trout forbidden.Black bass (at request of Fresno
delegation) bag limit 25; sub forbid-
den.The minimum penalty for unlawful
killing or possession of any game bird
to be \$10 for each and every bird so
killed or possessed, instead of \$25 but
as at present.There was also introduced and passed
a resolution to put a hunter li-
cense gun tax of \$1 per year on resi-
dent citizens who hunt \$10 per year
license tax on non-resident citizens,
and \$25 license tax on aliens who wish
to hunt within the boundaries of Cal-
ifornia. The latter provision will af-
fect principally the Japanese, who are
generally recognized as the worst of
fenders in the matter of violating the
game laws.In speaking of the convention, Andy
Ferguson said:"With the possible exception of that
part of the proposed license tax law
which puts a universal tax of \$1 on all
guns, the proposed bill is an excellent
one, and is in the interest of advanced
game protection, but unfortunately
for the friends of the game, the con-
vention discounted its chance to pass
any bill in the next legislature and dis-
credited its claim to unselfish devotion
to the good of the cause by permitting
the introduction and passage, in spite
of the protests of the purely disinter-
ested delegations headed by Sacra-
mento and Fresno counties, of a resolu-
tion condemning in unqualified terms
and humiliating to the present Board
of game commissioners. When without
getting forth that evidence had been
secured that the fish commission de-
served censure, the proponent of the
resolution frankly stated that they
proposed to offer none, it became pain-
fully apparent that the convention was
packed in the interests of the enemies
of the commission. And to its shame
be it said that after many hours of
fruitless wrangling the resolution was
forced through the convention as per
program."At the close of the balloting on the
resolution, their feelings outraged by
the apparent fact that the State Game
and Fish Protective association had,
with the active connivance and aid of
its president, been made the instrument
of wreaking private vengeance upon
an honorable commission, the
Sacramento delegation headed by Lieut-
enant Governor Alden Anderson, "drew
in a body from the convention has
not gone backword of late years, says
Mr. Ferguson, and the various county
associations and other friends of the
game should continue the fight for ad-
ditional protection in the next legisla-
ture. The official figures show the ac-
tivity and efficiency of the present
commission and that the cause is go-
ing forward. The figures are interest-
ing and demonstrate that public opin-
ion is constantly becoming stronger in
favor of game protection, enabling the
prosecution to get convictions, when
formerly they were indifferent or posi-
tively hostile to the game laws: 1897-8,
lines collected, \$3125; 1898-99, lines
collected, \$6770; 1901-02, under pre-
sent commission, \$9497; 1903-04, under
present commission, \$11,738; 1905-06,
under present commission, \$23,154.90.Some of the items making up fore-
going totals are: Violation of deer
law, 1897-98, arrests 11, fines, \$100;
1905-06, arrests 103, fines, \$4330. Vi-
olation of duck law, 1897-98, arrests 5,
fines, \$220; 1905-06, arrests 75,
fines, \$1530. Violation of quail law,
1897-98, arrests 7, fines, \$40; 1905-06,
arrests 103, fines \$2270.**THESE TWO ARE
JOINED IN WEDLOCK**Couple Joins Hands and Hearts In
Quiet Wedding on Sunday.Quiet was the wedding which took
place on Sunday afternoon with the
judicial benediction of Justice Smith.
The reason given out was that the
contracting parties wished to surprise
their friends.Charles Edward Long and Elizabeth
Alice Adcock, a year ago, when they
acted as witnesses at the wedding of
Mr. Long, Justice Smith recalled the
occasion, and when the parties drop-
ped across him on Sunday hinted that
they, too, contemplated doing the
same thing themselves, the judge noted
a bulky document sticking out of the
pocket of his male visitor. He pulled
it out and pointed out that there was
no time like the present. The couple
protested that the event was not to
happen until Monday or Tuesday, but
under the benign remonstrance of Judge
Smith, the "huson bride-to-be" said:
"It's up to him" as he nodded in the
direction of her suitor. This challenge
was promptly accepted by the groom.
They were united forthwith.**S. B. Catarrh Cure**
Cures catarrh of the head, ears, nose,
throat, stomach, kidneys, bowels and
bladder, when other remedies fail.
Price \$1 per bottle at Smith Bros'
Drug Store.**A. J. Patterson, Piano Tuner, 1227 R
St. Phone Black 195.****WHAT IS CATARRH?**Simple Way to Overcome the Dangers
of This Disagreeable Disease.
Catarrh is an inflammation of the
mucous membrane of the nose, throat
and lungs, with many annoying symp-
toms. In this climate there are few
who do not suffer from this disagree-
able disease, often in a chronic and
dangerous state.
Fortunately, within the last few
years, a simple and reliable treatment
for catarrhal trouble has been found.
—Hyomei, a combination of healing
and germ-killing balsams, that, when
breathed through the nasal pocket in-
haler that comes with every outfit,
reaches the tiniest cells in the respi-
ratory organs, carrying its healing and
health-giving properties to every part
where the catarrhal poison is present.
Used in this way, Hyomei kills all
catarrhal germs, drives the poison
from the system and heals all irrita-
tion that may be present in the mu-
cous membrane.
If you have the ordinary catarrhal
symptoms, such as offensive breath,
burning mucus in the throat, cough,
crowing of mucus, difficulty in breath-
ing, sneezing, huskiness, discharge from
the nose, droppings in the throat,
coughing spasms, etc., begin the use
of Hyomei at once.
A complete Hyomei outfit costs but
\$1, extra bottles, if needed, 50 cents,
and is sold by the San Joaquin Drug
company under an absolute guarantee
that it will cure catarrh or money
will be refunded.The minimum penalty for unlawful
killing or possession of any game bird
to be \$10 for each and every bird so
killed or possessed, instead of \$25 but
as at present.There was also introduced and passed
a resolution to put a hunter li-
cense gun tax of \$1 per year on resi-
dent citizens who hunt \$10 per year
license tax on non-resident citizens,
and \$25 license tax on aliens who wish
to hunt within the boundaries of Cal-
ifornia. The latter provision will af-
fect principally the Japanese, who are
generally recognized as the worst of
fenders in the matter of violating the
game laws.In speaking of the convention, Andy
Ferguson said:"With the possible exception of that

Good Glasses For Fresno

Now Good Glasses For Hanford

In response to repeated request from their large and growing list of customers in Hanford and vicinity, the Chinn-Beretta Optical Company has decided to establish a branch in that thriving city.

The great success of the Fresno house, which in the short space of eight months has doubled its testing facilities and its refractive and working forces, has encouraged the company to further effort to give the people of this valley the very best optical service. Service that should be skillful and perfect, honest and reliable.

The people of Hanford will be as quick as Fresno has been to perceive the immense advantages gained by getting glasses first hand, from the people who make them. Indeed this is the only way to be sure of getting proper optical service for the method of buying glasses from people who in turn have to buy them again from some one else is full of risk and certainly behind the times.

The location of the new branch will be duly announced and in the meantime Mr. A. E. Gribb, 126 W. Seventh St., Hanford, has kindly consented to give Hanford residents every information.

GEN. SHAFTER PASSED AWAY

Pneumonia Proved Fatal After a Week's Illness.

Remains Will Be Taken to San Francisco and Interred at Presidio.

BAKERSFIELD, Cal., Nov. 12.—Major Gen. William Rufus Shafter, U. S. A., retired, died at 2:45 p. m. today at the residence of Capt. W. H. McKittick, his son-in-law, twenty miles south of this city, after an illness of seven days' duration, despite the best medical attention in California.

While returning from the polls last Tuesday he contracted a severe chill which augmented a slight indisposition and necessitated confinement to bed. Dr. T. W. Mitchell, the local family physician, was at once summoned. The patient failed to improve and Dr. A. S. Schaffer was called in for consultation. An intestinal obstruction was discovered, but it was determined that this was a secondary ailment brought about by an acute attack of pneumonia.

Wednesday and Thursday no improvement was noticed and Friday afternoon Dr. M. H. Herzstein of San Francisco was communicated with. Unable to depart at once, Dr. W. Thorne was dispatched in Dr. Herzstein's stead. Dr. Thorne arrived early Saturday morning and, together with the local physicians, diligently watched the patient all that day. In the afternoon a slight rally was detected and relatives and physicians were extremely hopeful, but the change was short-lived. At 10 o'clock a sinking spell seized the veteran.

Dr. Herzstein arrived shortly after midnight Sunday morning and, after being hurriedly driven to the general's side, a consultation was held with the other physicians in attendance. It is stated that Dr. Herzstein deemed an operation the only means of relief from the intestinal obstruction, but the condition of the patient would forecast nothing but fatal results in such an attempt. Dr. Herzstein, accompanied by Dr. Thorne, returned to San Francisco by the first train, all hope of saving the patient's life being abandoned.

Always cheerful and hopeful, his mind clear and cognizant of his critical condition, the patient remained conscious until 9 o'clock this morning. Pure oxygen sent from San Francisco performed a great work in keeping life, but after midnight and early this morning a constant weakening was discerned. Dr. Mitchell and the trained nurses labored unceasingly, but the patient lapsed into unconsciousness at 10 o'clock and remained in that condition until death.

At his bedside were relatives, who kept a constant vigil throughout the long night. Captain and Mrs. W. H. McKittick, son-in-law and daughter; Miss Carrie Redmond, a niece, and Captain James W. Shafter, a brother, were at his side when the end came.

The body of Major General Shafter will leave this city Wednesday evening at 7:30 o'clock on the Santa Fe California Limited and upon arrival at Point Richmond the next morning will be placed aboard a government tug and escorted by military officers to the Presidio, where interment will be made after the post cemetery immediately after the arrival, with full military honors. The remains will rest at the McKittick ranch until Wednesday evening.

PRICES CURRENT

CHICAGO, Nov. 12.—During the early trading in the wheat pit, the tone was moderately firm, because of a fair demand by commission houses. This selling was largely the result of firm cables and continued small receipts in the Northwest. Later, however, the market gradually eased off. Local holders were free sellers of the December delivery and commission houses sold the May option. Much of this selling was based upon reports from the Northwest declaring that this year's crop of spring wheat will prove very large. Selling by commission houses that have Northwestern connections seem to confirm this impression. An increase of 775,000 bushels in the visible supply had some bearish influence, although the increases for the corresponding time last night amounted to 1,526,000 bushels. The market closed easy. December opened 1/4c higher at 73c, sold off to 72 3/4c and closed 1/4c at 72 3/4c.

The government report, which showed a farm reserve on November 1st of 119,000 bushels of corn, was chiefly responsible for the moderate weakness that prevailed today in the corn pit. December closed 1/4c lower at 42c.

The oats market was weak for the greater part of the day. December closed 1/4c lower at 34 1/2c. Trading in provisions were active and the tone of the market was weak. Receipts of live hogs were 5000 more than had been expected, and this led to considerable selling by local long, who bought Saturday on the expectation of light receipts. There was also moderate selling of January and by a local packer. The demand came chiefly from short. At the close January pork was off 7 1/2c at \$14.05, lard was down 7 1/2c at \$8.37, and ribs were 5c lower at \$7.55.

LIVERPOOL: Close: Wheat, December 3 3/4d, March 5 1/4d, May 5 1/4d.

SAN FRANCISCO: Wheat steady; December, \$1.24 1/2; May, \$1.30 1/2; cash, \$1.27 1/2.

NEW YORK: Evaporated apples are unchanged. Receipts are running light, but demand is sufficient to absorb offerings, and the market is steady in tone. High choice are quoted at 8 1/2c, choice 7 7/8c, prime 6 1/2c at 6 1/2c.

Prunes are reported in active demand on the coast, with prices for forward shipment advancing. The spot situation is firm and unchanged, with California grades ranging from 3 to 10c; Oregon prunes on spot are quoted at 9 1/2c to 10c for 40s and 20s.

Apples are nominally unchanged, with choice quoted at 16c, extra choice 17c and fancy 17 1/2c.

Peaches are in light supply, and prices hold steady, with old crop choice quoted at 11c, extra choice 12 1/2c and fancy to extra fancy 12 1/2c to 13c.

Raisins are steady, with loose Muscatels quoted at 7 1/2c to 8c, seeded 8 1/2c to 9c, and London layers \$1.03 to \$1.15.

Notice of Removal.

COMMITTEES DISCUSS CURRENCY SYSTEM

New York Chamber of Commerce and American Bankers' Association's Plans Considered.

WASHINGTON, Nov. 12.—Committees representing the American Bankers' Association and the New York Chamber of Commerce met in this city to endeavor to frame a measure for the consideration of congress looking to the giving of authority to issue emergency currency in cases of financial stringency.

The plan outlined by the American Bankers at their convention in St. Louis and that subsequently presented by the legislative committee of the New York Chamber of Commerce are not so greatly different in character but that they can be harmonized to the extent that a powerful recommendation for remedial banking legislation can be made to congress at the approaching session.

These plans provide in a general way for the appointment by the president, with the approval of the senate, of a commission of seven members, of which the controller of the currency shall be one. The committee would have the same control over the banking laws as is exercised by the interstate commerce commission over transportation laws.

The committee would be charged with the duty of considering all applications of banks for emergency circulation and would decide the necessity, the percentage circulation compared with capital stock to be allowed in order to meet the emergency and when the circulation should be called in.

Safeguarding against inflation would be one of the duties of the commission in connection with circulation. Three per cent has been suggested as the proper rate for such circulation.

LOCOMOTIVE WAS WRECKED

Further Details of Accident Near Gilroy.

Engine and Crew and Official Riding in Cab Were Killed.

SAN JOSE, Cal., Nov. 12.—The boiler of engine 3027, drawing the Sunset Limited train south, exploded last night at 9:30 o'clock when directly opposite Sargent station, a short distance south of Gilroy, tearing to fragments the bodies of the three men who were on the engine at the time. The bodies of Engineer Sam Gillespie of this city and Joe Goodfellow, superintendent of the Southern Pacific hook system, were picked up a short distance from the wreck maimed and disfigured. Gillespie having one leg blown off and being completely disemboweled. Every bone in the body of Goodfellow was broken. James Bladen, the fireman, who is a cousin of Attorney V. A. Scheller of this city, was hurled sixty feet from the station, and although breathing faintly when picked up, he expired a few hours later. None of the passengers was seriously injured.

When the boiler exploded the cab was hurled into the station, which was being passed at the time, destroying that structure, and the huge boiler, weighing 100 tons, shot forward through the air, striking the track ahead more than 300 feet from the spot where the explosion occurred. The empty trucks continued at their fifty-mile-an-hour gait until the boiler was struck. This ponderous mass of steel served as a bumper for the swiftly on-rushing train of Pullman sleepers and tourist cars, and it was pushed forward through the gravel and ties for twenty feet more before the train came to a stop.

The tender, chair car, mail car and two tourist sleepers were derailed and some of the passengers were slightly shaken up, but the last six cars remained on the track without damage to them or injury to their occupants.

With the assistance of physicians on the train, the injured man, Bladen, was cared for until he could be sent to Gilroy, where he died within a few hours.

A panic followed the sudden stopping of the train and it was with difficulty that women passengers were restrained from jumping headlong into the ditch.

The second and third cars were both almost overturned, and had it not been for the close proximity of a bank of gravel they would have turned turtle, with serious results.

SOUTHERN LABOR PROBLEMS REVIEWED

How to Deport Worthless Negroes and Encourage Immigration Are the Questions.

NASHVILLE, Tenn., Nov. 12.—The second annual session of the Southern Immigration and Quarantine Society began today. The object of the conference is to obtain a more liberal distribution of immigrants. The idle negro class causes some apprehension in the minds of immigrants, and this operates against the South receiving what it thinks is its proportionate share of laborers from abroad. Various plans are suggested for ridding the south of its worthless negroes and the race question was thus early injected into the discussion.

Governor D. O. Heywood of South Carolina, speaking of the plan to deport negroes, said the deportation could not be attempted unless it became a national, and not a Southern, movement.

GUERRILLA BOER'S PARTY HAS EVADED CAPTURE

No Anxiety Experienced In British Government Circles As to the Alleged Raid.

CAPETOWN, Nov. 12.—The colonial police force which is pursuing the insurgent party under the transvaal floor, Ferrer, was within five miles of the raiders late last night, but the scarcity of water and the sandy country rendered the chase difficult. The fugitives have gained several recruits.

LONDON, Nov. 12.—The Boer raid in the northwestern part of Cape Colony occasioned no anxiety in government circles.

PITTSBURG TERRORIZED

Long Series of Crimes Has Created Panic.

Three Murders, Several Robberies and an Attempt at Crucifixion.

PITTSBURG, Nov. 12.—Pittsburg terrorized and likened to a mining camp or a frontier town, is the tone of all this morning's issues of the papers. With three murders, a number of robberies on the highway accompanied by violence, and an attempt at crucifixion, the twenty-four hours, added to the large number that have occurred during the past two weeks, there has been such a public demand for extra police that Mayor Guthrie and Director of Public Safety Ridgway last night put on a number of extra police without legal provision for their compensation, trusting to the effect of public clamor upon the select and common councils for favorable action upon this move.

The record for twenty-four hours, besides the murder of Henry F. Smith, a young business man of the fashionable East End, who was shot by burglars who entered the Smiths' home in exchange for the robbery of Charles H. Lawrence, early yesterday morning at Fifth avenue and Brady street, almost in the heart of the city, Lawrence was knocked unconscious with a slung shot, and robbed of a gold watch and all his money, while going home from the Hotel Schenley, where he is employed as a waiter. He will be confined to his bed for a week with his injuries.

Nicholas Lewis, of Sharpshurg, a few miles from this city, was beaten and robbed and did not recover consciousness for several hours. Raymond White, of Duquesne, was also found yesterday early today bruised with several ribs broken. He also had been robbed and could give no description of his assailants.

The crucifixion case was brought to light by the screams of a woman in a tenement of Forbes street, near the Jones and Laughlin steel mills. Neighbors rushed in and found Mrs. Jean Mitchell, 10 years old, in the kitchen, huddled in a kneeling position on the floor with both hands nailed to the draining board of the sink, with the blood running down her arms. Alongside was a hatchet, the weapon which had been used to drive two big nails. The woman was unconscious and was taken to a hospital. When she recovered she merely said that when she entered her flat that morning something struck her on the back of the head, and she felt herself drawn toward the sink, and her hands pressed down against the board, and two nails driven in.

The police are looking for William Neely, known as William Mitchell, husband of the woman. The day's series of violent deaths was further augmented by the death of Sofia Randucci, an Italian, who was stabbed in a fight among railroad laborers in a boarding house. Three others were badly cut up by stilettos and razors. Peter Nazidendi, an Italian, died in the Allegheny hospital from a bullet wound fired by Peter Fedori, a Russian, who was playing a mandolin. Fedori was playing a mandolin and threatened to shoot off Nazidendi's thumb. The threat was carried out and in addition to carrying away the thumb, the bullet penetrated Nazidendi's abdomen. Fedori is under arrest.

VALENCIA'S HERO DENIED RECOGNITION

Carnegie Hero Fund Commission Will Do Nothing Because He Has Exhibited Himself.

SEATTLE, Wash., Nov. 12.—John Segalos, the Greek fireman who made five ineffectual attempts to swim ashore with a life line from the steamer Valencia just before she went to pieces on Vancouver Island rocks last January, and who has since been hailed as a hero and been given two medals by various associations and churches of this city, has been refused participation in the Carnegie Hero Fund, the commission notifying him of their disapproval today. The sum of \$10,000 was recommended by Special Agent Crumsey, who spent several weeks here investigating the case, but the commission refused on the ground that Segalos had already signed to let himself be exhibited by a theatrical manager for forty weeks subsequent to the disaster.

DENMARK'S RULERS VISITING ENGLAND

King Haakon, Queen Maud and the Baby Prince at Windsor Castle.

LONDON, Nov. 12.—King Haakon, Queen Maud and Crown Prince Olaf of Norway, who arrived off Spithead last night on board the British Royal yacht Victoria and Albert, landed at Portsmouth this afternoon on a state visit to King Edward and Queen Alexandra, with whom they will spend a week at Windsor castle. A series of festivities has been arranged for the entertainment of the visitors, including a state banquet and a luncheon at the guild hall. The Prince of Wales welcomed King Haakon and Queen Maud in behalf of King Edward, after which the royal party landed amid salutes from the flag-dressed warships and the land batteries and took a train for Windsor.

On arriving there the visitors were met by King Edward, Queen Alexandra and most of the royal family, including the Duke and Duchess of Connaught, who had spent the week-end as guests of William Waldorf Astor at Cliveden. The route from the depot to the castle was lined with troops and the royal travelers received a splendid welcome from the inhabitants of the borough, Baby Crown Prince coming in for a full share of the popular plaudits.

FASHIONABLE WEDDING IN DIPLOMATIC CIRCLES AT NATIONAL CAPITAL

WASHINGTON, Nov. 12.—Miss Kathleen Clayton, daughter of General Powell Clayton, former ambassador to Mexico, was married to Arthur Grant Duff, British minister to Cuba, this afternoon, in the Belgian legation here, the wife of the Belgian minister being the bride's sister. Rev. E. C. Smith, rector of St. Thomas, Episcopal Church, officiated. The bride was attended by Miss Grace Thompson, of St. Louis, and the bridegroom by Ronald C. Lindsay, of the British embassy staff.

MYSTERIOUS WOUNDING OF YOUNG WOMAN

Visitor in Los Angeles Was the Victim of an After Theater Assault.

LOS ANGELES, Cal., Nov. 12.—According to a morning paper, Miss Beth Hitchler, of Wilkes-Barre, Pa., who is a guest of Misses Mary and Love Lines, of this city, was stabbed in the back with a sharp instrument in the hands of an unknown man, as she was leaving the Belasco theater after a matinee performance last Saturday afternoon.

The wound sustained by Miss Hitchler was a cut four inches in length, extending from a point over the right shoulder blade downward. No reason for the attack is known by Miss Hitchler or her friends, and there is no suspicion of the identity of the man. It is believed that the man either attacked Miss Hitchler believing her to be some one else, or that he was a degenerate.

Miss Hitchler with a woman companion had just emerged from the side exit of the theater when a man whom she noticed standing beneath the fire escape, stepped behind her and seized her roughly by both shoulders. Her hat was jostled and she did not notice that she had been injured until she had entered a street car, when she found blood streaming copiously from a wound in her back.

Miss Hitchler took no particular notice of the man, except to observe that he was well dressed and of cultured appearance. He disappeared in the crowd immediately after the affair.

WIRELESS MESSAGE FROM THE PRESIDENT REPORTED ALL WELL

CHARLESTON, S. C., Nov. 12.—Wireless telegrams received here from the battleship Louisiana with the president and party aboard en route to Col. 10, show that at 7 o'clock this morning the ship, with her convoy, was at a point about 300 miles southeast of Jupiter Inlet, Fla. The president and party were all well.

SENSATIONAL MURDER CASE

Young Man Charged With Killing Sweetheart.

She Was Drowned While Boating in the Adirondacks and He Fled.

CHEEKEIMER, N. Y., Nov. 12.—Chester Gillette, a young man of good family, was placed on trial here for his life today. He is charged with the murder of his sweetheart, Grace Brown, whose body was found in a lake in the Adirondacks on July 12th last.

The girl had gone to Big Moose, near where her body was found, with Gillette. After they had registered at a hotel the couple went for a boat ride on the lake and she was the last time she was seen alive. It was supposed at first that both Gillette and the girl had been drowned, as their boat was found floating on the lake with the girl's coat in it. Miss Brown's body was speedily found, but Gillette could not be located.

Later someone reported that he had seen Gillette hurrying down through the woods and a search was made for Gillette on suspicion that he had murdered the girl. He was arrested July 14th at the Arrowhead hotel at Inlet. An extraordinary term of the Supreme court was convened by order of Governor Higgins, so the case might be given to a grand jury. The grand jury indicted Gillette for murder and his trial was set for today.

The prosecution, it is expected, will contend that Gillette killed Miss Brown for the purpose of getting rid of her that he might be free to devote his attention to another woman. The case gets much of its interest from the secrecy of the defense. Gillette, when captured, declared the girl's death was accidental. Whether he will still hold this contention is not known, as his lawyers have given no inkling of what the defense will be.

Other than that Miss Brown's death was accidental, and that he fled, through fear, after the girl was accidentally drowned, Gillette may take one of two contentions for his defense. One of these is insanity, the other that the girl committed suicide. If the plea of insanity is entered, witnesses may be produced to testify that there is a strain of mental derangement in Gillette's family, and that he himself has acted strangely for some time. Should the suicide theory be advanced, the defense it is said, can submit letters written by the girl, in which she threatened to destroy herself.

BOMB THROWER IS KILLED BY TARGET

Attempt to Kill Moscow's Prefect of Police Ended In Death of Terrorist.

MOSCOW, Nov. 12.—A bomb was thrown at General Kleinhold, prefect of police of Moscow, on Tuesday today. The general, according to the generally accepted version of the affair, drew a revolver and killed the man who threw the bomb.

According to the details of the affair obtainable, the general, confident that the powerful terrorist organization which had long menaced his life had been broken by the recent arrests and the executions was, for the first time in months, taking a walk near the prefecture of police, accompanied by a police captain and two aids. Suddenly, a young man on the opposite side of the street threw a bomb at the general, which fell short, though splinters of the missile pierced his overcoat. The official accounts say that the bomb-thrower was shot by a policeman, but according to popular report the prefect of police himself rushed across the street and shot his assailant through the head.

THANKSGIVING.
Supplementary to the proclamation of President Roosevelt, setting aside November 23 as a day of thanksgiving, Governor Pardee has issued a proclamation, making the same day a state holiday. There will be much for California to be thankful for, not the least of which is the way in which we have weathered the storm of an unprecedented calamity. Business was never better, and the people were never more courageous and cheerful. And the dread times that stripped the masks from men's souls have left us with a clarity of moral vision such as nothing less could have revealed. For prosperity and calamity, for victories and defeats, and for the lessons of them all, we have special reason to be thankful, as a people and as a state. So let us all prepare to heed the governor's proclamation in the manner that seems to us most fitting.

SETTLEMENT WORK.
The civic department of one of the women's clubs has taken up the question of "settlement work" among the foreign colonies in Fresno. Whether the work can be carried out, on a Fresno scale, by the methods approved by the experience of big cities, can perhaps only be told by trying. But in some form, this work of teaching our immigrants how to live—how to eat, breathe, bathe, clothe themselves and care for their babies—is the most important civic problem in Fresno. When immigrants come singly and settle among American neighbors, these problems solve themselves. The new comers acquire the civilization around them by the only process by which any civilization can be acquired, by imitation. It is only when they settle in colonies and congested districts of themselves that they become a problem. It is a problem, then, which the public schools alone can not solve. They take quite for granted that home training which is a part of every American household. When there is a vast swarm of people of whom this training can not be assumed, it becomes necessary to provide it.

Conditions in "Russiantown" are probably the ones calling for most serious attention. Here is a large and increasing population, occupying almost exclusively one quarter, with a very high birth rate, and also an excessively high death rate of children. Most of these children die of preventable diseases, and with proper care the majority of them would live. Probably nobody could teach the people to give this care except a trained district nurse, enjoying the confidence of the people. Then the whole way of life; the need in this climate of open windows and plenty of air; proper food and water, and their proper preparation and use—none of these things can be taught in the primary school, still less of condescending outside missionaries. The way such work is done in the congested districts of big cities is to establish little households of devoted university-trained workers, to settle among these people and live with them as neighbors and friends, on their own terms, with the hope that one such neighbor, by a little active and intelligent work, may go as far with a multitude of neighbors who have had less advantages, as several neighbors could do with one such immigrant, by the ordinary process of mere undirected imitation. Personal contact, personal friendship, personal example and sympathy, are the keynote of the work. But how it is to be done in Fresno, under small town conditions, is a more difficult matter. The only thing not difficult is to see the great and urgent need.

Another local necessity seems to be a day nursery and kindergarten in "Russiantown." In many of these families, the women as well as the men work, and the younger children are left in care of the older ones, thereby depriving them of school. A day nursery and kindergarten would relieve these older children, and the mother, and might often save valuable lives as well. The whole task is a difficult, but extremely important one. We are glad to know it is in competent and enthusiastic hands.

Some San Francisco doctors have got into all the papers, including the Republican's dispatches, their alleged demonstration of "human electricity" in which a man swallowed two electrodes connected with a closed current, and a faint, just measurable current of a few thousandths of a volt was discovered. The experiment seems very "human" indeed until we realize that the stomach contains hydrochloric acid, and that a similar experiment, with an unresisting animal or man, would produce similar phenomena.

Officers in the army are again undertaking to enforce, by police methods, the doctrine that a private soldier in uniform is as good as an civilian, and is entitled to the same personal and social consideration. The doctrine may be all right, so far as civilians and soldiers are concerned. But it will be listened to with more patience from army officers, when those officers begin to treat the private soldier with any recognition of that equality with themselves, which they require to be manifested by everybody else.

WHERE IS THIS MISSING YOUTH?
John C. Bullock, a Pine Ridge Youngster, Is Missing from His Home.

Where is John C. Bullock? This is something that the friends of the missing youth would like to know. He left his home in Pine Ridge one week ago and has not been seen since. The last heard of him was when he was said to have visited Burr Valley on Tuesday, November 6th, and took his departure for parts unknown. He was last seen at Peter's mill at Pine Ridge. Bullock is a tall, lanky lad of 17 years. He is six feet in height. While of course the probabilities are that he went off somewhere of his own volition to see the world and be independent, there remains a bare possibility that the young fellow has fallen into foul play somewhere, and also has been deceived away by hulkers. He was unsophisticated and knew little of the world's ways. His parents are anxious over his disappearance, as he was not thought to be the kind of boy to run away without notifying his relatives. He is described as a quiet, home-loving lad.

Y. M. C. A. ATHLETICS
High School Football Squad to Have Training Quarters at Association.

Arrangements are being made for the football squad of the High School to have training quarters at the Y. M. C. A. A meeting of the team was held yesterday afternoon at the High School and it was decided to enter the football association membership list if the student body would agree to pay a half of the membership dues, the members of the team paying the other half. For years the High School team has been compelled to use a small, dark, cold room in the basement of the High School for a dressing room. There is only one window in the room and that on the northwest side so that no sunlight enters. During the rainy season when the room is most unusable, water stands on the floor and all the conditions are directly opposed to what should be a favorable environment for an athlete's training. From now on the team will probably have access to the hot and cold baths of the association and also have a suitable place to dress.

The gymnasium class for High School students is being well attended and about twenty of the thirty who signed up to join the association have gone in already. Since election the two business men's classes are becoming normal again and the members are returning one by one.

CHINK FANTAN JOINT IS RAIDED BY POLICE
Nine Celestials and One Jap Are Included in Big Haul of the Officers.

Breaking through double barred doors and slipping past a doxy sentinel at the entrance, Chief Shaw, with Officers Walton, Mathen and Goehring raided the fantan joint of Sing Chung Lung on the corner of Tulare and China Alley just before midnight last night. The place contained a number of Chinkmen and one Jap. They were taken to police headquarters and released on cash bail, which will probably be forfeited by default of appearance in court when the charges are called. The arrested men are Ah Wing, Ah Son, Ming, Chin Lu, Sing Chung Lung, Lee Chung, Lo Hing, Lee On, Ah Chung Si, and the Jap, Tai Chait.

The place has been running without injudicious protection, but has been raided from police intrusion. When it was decided to raid the place, the chief and other officers went softly up to the door and rushed in while the heavy double doors were temporarily ajar to allow a patrol to go out. The sum of \$65 and the implements of the game were found.

TWO JAPS MAY FACE A MURDER CHARGE
Furious Assault on Another Jap May Turn Out Fatally—Affray Took Place in Selma.

As the result of a furious assault by two of his countrymen during a drunken quarrel in Selma on Sunday night, the two Japs are in a precarious condition, while his assailants are safely lodged in the county jail awaiting the outcome of the injuries of their victim. If he survives the men will be charged with assault with intent to kill. If he dies, it will mean a capital charge.

The two charged men are J. Nakamura and S. Tamura. They were brought from Selma in care of Constable Powell. It is alleged that Tamura told the man in a defensive position while the other ran off. The recovery of the two men is doubtful and the chances are that the two men will be charged with murder. They are contractors of labor and have lived here many years. Both are known as bad men when drinking, and have killed other Japs on previous occasions.

DR. DAVIDSON BACK FROM EASTERN TRIP
Was Called to Nashville By Serious Illness of His Father-in-Law.

Dr. and Mrs. J. D. Davidson are back from their Eastern trip. They were called to Nashville, Tenn., on September 22nd last by the serious illness of Mrs. Davidson's father, O. F. Noel. He is now completely recovered. Dr. Davidson remained with him a month. During that time he had two bad spells, but rallied bravely.

Dr. Davidson visited the hospitals in Chicago and made a special trip to Rochester, Minn., to see the surgical work of the Mayo brothers. They have a wonderful reputation in the surgical world and Dr. Davidson says their work is the greatest he has ever seen. Dr. Davidson was just recovering from a dangerous sick spell when he was called East, but the trip has greatly improved him and he is looking fine.

More Negro Soldiers Dismissed.
SAN ANTONIO, Tex., Nov. 12.—Fort Sam Houston received orders from Washington today to discharge without honor from the army twelve negro soldiers, members of Companies E, C and D, Twenty-fifth Infantry, who are now in prison at the fort, charged with rioting and murder at Brownsville, Tex. The discharge will be made at once.

NEGRO USED HIS RAZZAH
Race Trouble in Ohio Town Caused Affray.

White Man Ordered Colored Man from Restaurant and Row Began.

MOUNT VERNON, Ohio, Nov. 12.—Race troubles, which have existed here for some time, culminated in a serious affray today, when Grant Dunn, white, with a razor so that forty-seven stitches were required to close the wounds, was injured and Stewart is in jail.

There was much excitement during the day, but all is quiet tonight and no further trouble is believed imminent. Considerable ill-feeling has existed between the blacks and whites for some time and there have been frequent street fights.

When George Dunn entered a restaurant this morning, he found all the chairs occupied. Going over to Grant Stewart, colored, Dunn ordered him to give up his seat, saying, "This is no colored restaurant." Both men were enjoined by the proprietor, but the quarrel was renewed on the street. Stewart, it is said, drew a razor and commenced slashing Dunn on the body.

The race trouble started four weeks ago, when a white man is alleged to have made an insulting remark to a colored woman on the street.

MAYOR AND PARTY WILL GO AFTER DUCKS

Mayor W. Parker Lyon, ex-Mayor L. O. Stephens and a party of well known residents will start off today for Duck City on a little hunting trip. They intend spending several days in the marshes and are telling their friends of the big bags of game that will reward their crack marksmanship. The rest of the party is to be made up of Dr. J. L. Maupin, Sheriff-elect Bob Chittenden, Will Chittenden, C. H. Riege, George H. Monros, Eugene Mathewson, W. A. Stephens, Peter Linnaz, Chase Bayra, George Cobb, J. D. Morgan, P. A. Homan and Coroner Cowan.

AGED VETERAN LAID TO REST BY CORMADES

The remains of Robert H. Abbott were interred yesterday afternoon with military honors by the veterans of the Grand Army Post after the holding of services in the chapel of Shannon & Brall. Commandant Parker conducted the ceremonies. The dead man was 77 years old and died in the county hospital from senility.

OVERLAND LIMITED ROBBED IN NEVADA

Armed Bandits Held to Have Secured \$1000 from Passengers and Conductor.

RENO, Nev., Nov. 12.—Armed bandits held up the Overland Limited, west-bound, at Carlin Saturday night and escaped with the suit cases of passengers and the money sack of Conductor Conna. The railroad men at Sparks state that they secured about \$1000 in all. A posse was formed and a pitched battle took place at the edge of the town, 100 shots being fired. No one is known to have been injured.

Southern Pacific detective and deputy sheriffs are hot on the trail of the robbers.

TWO SHOOTINGS IN WEST VIRGINIA CAMP

Workmen Killed Two Companions and Officer Shot Three Drunken Negroes.

BLUEFIELD, W. Va., Nov. 12.—Tim Miller, a workman at the Mason and Munday railroad camp, shot and killed his companions, Abraham Arters and William Reals, during a dispute over a game of cards at Oakvale tonight. After the shooting he escaped.

Constable Burosalt at the United States Coal and Coke Company shot three of the camp's negroes tonight. The three arrested and the officer, in order to protect himself, was compelled to shoot them. The shooting was the result of a drunken brawl, which the officer tried to stop.

ROCK ISLAND HAS PLACED BIG ORDER

Five Million Dollars Worth of New Equipment, Including Steel Passenger Cars.

CHICAGO, Nov. 12.—The management of the Rock Island railroad has issued orders for new equipment to cost \$5,000,000. This is in addition to orders previously given this year aggregating \$3,000,000. Included in the new equipment are 2,000 forty-ton boxcars, 250 stock cars, 1,000 ballast cars, 800 coal cars, 300 flat cars, 2,500 hopper cars and nearly 100 passenger, postal and baggage cars. All the new passenger equipment is to have steel underframe construction and the new mail cars are to be all steel.

Japanese for Hawaii.

HONOLULU, Nov. 12.—Captain Mizuno, commanding the Japanese steamer Chiusa, says that the immigration companies of Japan are prepared to send 20,000 laborers to the Hawaiian Islands by next June, which the regular transportation companies were unable to handle. Six thousand young men are now in Yokohama ready to embark for the islands.

Boys and Their Pistols.
SAN LUIS OBISPO, Nov. 12.—While Paul Fierent and Charles Clark were playing with pistols in a field near their homes near Cayun yesterday, the Fierent lad was accidentally shot through the right lung. The wound will probably prove fatal.

Illinois Central Changes.
CHICAGO, Nov. 12.—J. T. Harahan, the new Illinois Central president, today announced the appointment of J. F. Titus to be assistant to the president and to perform the duties of the late J. T. Welling. It is likely that the vice president, which Welling held, will be abolished.

RUSSIAN CRUISERS SUNK BY JAPANESE
Excitement at Vladivostok Caused By Report from the Seal Rookeries.

VICTORIA, B. C., Nov. 12.—According to advices by the Empress of India, which arrived this evening, a telegram to the Japanese newspapers from Vladivostok reports great excitement caused there, by the report that the converted cruisers Silka and Melina, which have been doing patrol duty at the seal rookeries off Upper Islands, have been sunk by a Japanese destroyer in the neighborhood of the seal islands.

The Japanese mail discards the report, saying if such disaster has occurred at the islands it is probably due to floating mines.

BRITISH FLEET IS BOUND FOR TANGIER

To Make Demonstration in Moorish Waters Together With French Fleet.

GIBRALTAR, Nov. 12.—The British Atlantic fleet is to leave here for Tangier, in conjunction with a French fleet of warships it will engage in a demonstration in Moorish waters.

The British warships were provisioned tonight on very short notice.

HOUSE OF COMMONS HAD ALL NIGHT SESSION

Land Tenure Bill Causes Bitter Debate and Many Defeated Amendments.

LONDON, Nov. 12, 6:35 a. m.—The house of commons has been sitting all night and is still in session. It is discussing the land tenure bill, which affects both England and Ireland, the object of which is to ameliorate the condition of the farmers. The opposition is bitterly contesting and moving numerous amendments which, after acrimonious debate, are being defeated by large majorities.

The present is the most prolonged sitting of the new parliament.

QUADRON KILLED WIDOW AND THEN HIMSELF BECAUSE OF "TROUBLE"

BATON ROUGE, La., Nov. 12.—The bodies of Mrs. K. H. New, 41 years old, a widow and mother of several children, and William Bates, a quadron, were found today in a lonely spot near University lake, opposite this city. The coroner decided that Bates killed the woman and then took his own life. She was last seen Sunday afternoon in a boat with Bates, who was rowing across the lake. Saturday night Bates told acquaintances that he was in trouble over a woman and intended to kill himself.

SWITCHMEN ACCEPT PROFFERED ADVANCE AND TROUBLE ENDS

PITTSBURGH, Nov. 12.—Announcement was made tonight that the switchmen had agreed to accept the advance of 4 cents per hour offered last week in Chicago by the railroad officials, and it is asserted there will be no strike. Representatives of the firemen and engineers met today at the Seventh Avenue hotel in this city to discuss the wage question, but no definite action was taken. It was said all statements must be made through the general officers.

Arrested for Hatpin Homicide.

SCRANTON, Pa., Nov. 12.—Kate Burke was arrested at Dunmore today, charged with the murder of Thomas Dougherty, whom she stabbed in the heart with a hat pin Saturday night and whose death followed yesterday. The stabbing followed a quarrel. Miss Burke said the affair was an accident.

Fire Damage at Mobile.

MOBILE, Ala., Nov. 12.—Fire, which started at midnight last night destroyed the sawmill plant of Hieronymus Brothers on the river front, and sparks ignited the paint shop of the Mobile Hardware company, several blocks away, causing a loss of about \$60,000. Several large seagoing vessels were in at the time, but were saved by other boats coming to their assistance.

Proceeding Against Standard Oil.

COLUMBUS, O., Nov. 12.—Suits were filed in the circuit court at Lima, Ohio, today, by attorney General W. H. Ellis, against four subsidiary companies controlled by the Standard Oil company of New Jersey, to prevent the further operation of the combination known as the Standard Oil trust.

Open Shop in Mobile.

MOBILE, Ala., Nov. 12.—All but one of the building contractors of Mobile today put their establishments on a pro-open shop basis, according to a preliminary agreement. As a result about 1,500 men in the building trades failed to show up for work.

Governor Pardee Is Cautious.

SACRAMENTO, Nov. 12.—Governor Pardee declines to issue a pardon in the case of Dowdall, under sentence of fifty years for robbing Dr. T. B. W. Leland of San Francisco, until he shall have satisfied himself that the confessions of Dahmer and Siemsen are genuine. He has asked for a transcript of the testimony taken at Dowdall's trial.

Troops Marching in Cuba.

HAVANA, Nov. 12.—A series of practice marches throughout the island by American troops began today, with the departure from Camp Columbia of the Fourteenth and Seventeenth mountain batteries for Pinar del Rio, and the Eighteenth field battery for Matanzas.

Small Boy and a Gun.

LODI, Cal., Nov. 12.—Last night, Emil Gallagher, aged 6 years, while playing with a loaded shotgun, fired the charge into the arm of his 2-year-old brother. The boy's arm was torn to shreds and will have to be amputated. The older brother did not know the gun was loaded.

Big Saving.

"Listen!" said the man of middle age, who was bending over the palmist, whispering excitedly in her ear.

"Listen!" he said again. "My wife is coming to you this afternoon to have her fortune told, and if you want to make some money on the side—"

He laid a bank note on the stuffed owl's head.

"I'll let her on account to buy a motor car, because you read in her palm that she is doomed to be killed in an automobile accident."

Kutner-Goldstein Co. 25c Sheet Music, 19c. Kutner-Goldstein Co.

Everybody Is Saving Coupons to Get Christmas Presents Free!

The plan has caught on already. And everybody is saving K.-G. coupons. But why shouldn't they? The opportunity to get Christmas gifts for nothing, during November and December, is not to be overlooked by anybody who has thought of economy.

Our Free Christmas Gift Proposition is simply this: With every 10c purchase in any of the 22 departments of this store we issue a slip which entitles you to Christmas Gift Coupons at the Exchange Desk. When you save 200 of these coupons you can exchange them for certificates, which can be used the same as cash in the purchase of articles in our Basement.

So do all your trading here and save your coupons—and get all your Christmas Gifts free this year!

An Elegant Suit, \$32.50

EASY DUPES.
A lawyer said of the late Al Adams in New York:
"Mr. Adams was very honest and upright with his friends. He treated his friends far better than does many a venerable church goer I could name. And if he frankly admitted that he duped the public—why, if all who duped the public were sent to prison for it, our jails would have to be enlarged."

"Like Barium. Mr. Adams claimed that the public liked to be fooled. As an example of the ease it could be fooled with, he used to tell a story about a calendar vender.

"This vender, one wintry day, entered a cafe and said to a man who was reading a newspaper and drinking hot lemonade:
"Won't you buy a calendar, sir? The New Year is close at hand."
"No. I don't want a calendar," the man answered, sipping his lemonade impatiently.

"But the vender persuaded him to buy one, and he ordered it to be delivered to his wife at a house on the next square.

"Going to this house, the vender said to the wife:
"Your husband, madam, sent me from the cafe on Exe street with this calendar, which he wishes you to buy for his desk."

"The lady paid a quarter for the twice-sold calendar, and the reckless vender returned to the cafe where here husband sat.

"While he was trying to make more sales there, the husband went home, heard of the trick that had been played on his wife and him, and, ringing up his butler, said furiously:
"Go down to the cafe at once, and bring up the calendar vender you'll find there."

The butler went to the cafe, found the vender busy with a customer, and delivered his message. But the vender, handing out another calendar, said:
"Oh, I know what your boss wants. He wants a calendar. Have you got a quarter? It will save the trip up."

"Yes; here you are," said the butler, and taking the calendar with one hand and extending a quarter with the other, he hurried back home.

A live wire on the telephone line between Tulare street and China alley set the woodwork of the pole above called out. At one time a flame twenty feet rose in the air, but subsided before the engine arrived. The damage was trifling.

What Electricity Can Do.
The Electrical Engineer of Loughborough has recently told the residents of that town what a unit of electricity is capable of. It will:
Saw 300 feet of timber (deal).
Clean 5000 knives.
Clean 75 pairs of boots.
Clip five horses.
Warm your curling tongs every day in the year for three minutes and twice on Sundays.
Warm your shaving water every morning for a month.
Run an electric clock for ten years.
Iron 30 silk hats.
Light 3000 cigars.
Knead eight sacks of flour into dough.
Fill and cork 250 dozen pint bottles.
Supply all the air required by an ordinary church organ for one service.
Pump 100 gallons of water, or other liquid, to a height of 25 feet.
Run an electric piano for ten hours.
Lift 3 1/2 tons 75 feet in four minutes.
Give you three Turkish light baths.
Boil nine kettles, each holding two pints of water.
Run a small ventilating fan for 21 hours.
Keep your breakfast warm for 21 hours.
Run a sewing machine for 21 hours.
Carry your dinner upstairs every day for a week.
Keep your coffee pot warm at the breakfast table every day for a week.
Carry you three miles in an electric brougham.—London Leader.

Plans of Mrs. Sartoris.
Her youngest daughter having crossed the line into the domain of matrimony, Mrs. Nellie Grant Sartoris purposed to pass her winters hereafter in Washington. Miss Rosemary Sartoris, who was married recently to Mr. Woolston of England, and been her mother's close companion. She spent little time abroad, contrary to the custom of her sister, now Mrs. Frederic Rhosewell Soovel. Mrs. Woolston is got as brilliant as her sister, but she has admirable home qualities. Mrs. Sartoris, who is almost an invalid, will live in an apartment house and, if her health permits, she will make a short visit to Florida to see the bride couple in March. President Grant's daughter still is devoting much of her time to editing her mother's memoirs and the letters written by her father to members of his family in their absence from home.—New York Press.

Now That Election is Over

PEACE DISTURBER INVADES OFFICER'S HOME

A peace disturber yesterday invaded Police Officer W. L. Aubrey's home and the officer was helpless to do anything. The home would not fit and his car had no tires. The invader was a girl. The officer's new hat will be the floor for many nights to come. Both brother and wife are doing well, and Officer Aubrey is receiving congratulations from his brother officers.

Change in Treasurer's Office.

John C. Nourse, who has been a deputy in the office of the county treasurer for some months, being employed on account of the inability of Treasurer Marshall to give his personal attention to the office during his illness, has decided to go into business again, and has resigned from his position. The place in the office will be filled until the first of the new year by J. M. Bramblett, who for so many years has been in the county auditor's office.

WEATHER

WEATHER.
SAN FRANCISCO, Nov. 12.—The storm over Washington on Monday moved steadily eastward and is now over Montana. Rain has fallen over the entire northern portion of the coast, with south to southwest winds. Forecast: San Joaquin valley—Clear Tuesday; light north winds.

FRESNO, Nov. 12. Official readings at 5 p. m.:
Temperature, dry bulb, 50
Temperature, wet bulb, 41
Humidity, 72
Wind (N. W.) 12 miles per hour
Maximum Temperature, 50
Minimum Temperature, 38
Fair, Tuesday.

An area of low barometric pressure covers the region east of the Mississippi river, with it center off the New England coast, causing rain or snow over portions of the Missouri, Mississippi and Ohio valleys, the lake region and the Atlantic slope, being heaviest at Boston, with a total of 1.02 inches. It is moving at Buffalo, Cleveland, Elkins and Esplanade. An extensive area of high pressure covers the region between the middle Pacific coast and the Mississippi river, accompanied by cold weather. Considerable cloudiness prevails within the area, except over the southern Rocky mountain districts, where clear weather prevails. A storm of considerable energy appears over Puget Sound, accompanied by a small area of local rain. High temperature prevails along the Pacific coast, with clear weather over California and cloudy in rainy weather over Oregon and Washington. The weather will be fair at Fresno and vicinity Tuesday.

The remains of the little girl are at the undertaking chapel of Shannon & Beall, and were visited by a host of friends all day yesterday. The little playmates and school friends of the child flocked to the death room in numbers with a number of family friends.

JAPTOWN FIRE CAUSES EXCITEMENT IN COLONY

Blaze Burns Lodging House Ran by Kamikawa Brothers, and Is of Unknown Origin.

Pandemonium reigned in the Japanese colony at an early hour yesterday morning when a lodging house adjoining the Kamikawa building caught fire and was destroyed in the interior. The house is situated on Kern street and is damaged to the extent of about \$100. An insurance policy was carried.

The blaze was first discovered by Officer Gohlberg, who gave the alarm. The fire department responded promptly and put in some effective work extinguishing the flames under trying conditions.

When the fire was discovered the lodgers devoted their energies to saving their effects and leaving the fire to its own resources. The street was lined with hundreds of Japs carrying their trunks and bundles in a demoralized fashion. One of the men ran across the road in front of a speeding fire engine. He was not badly hurt, but had a narrow escape from being crushed under the engine.

The origin of the fire has not been discovered. It is supposed that it was due to sparks flying from an open stove over which a cook was preparing food. The Japs themselves claim that the blaze started in the shed of Nishimura's stable, but this does not seem likely.

The building is owned by Mrs. Shoji, who had it leased out to Kamikawa brothers.

FATALLY KICKED BY HORSE DURING FIGHT

John McCuarg Is Thrown Against Vicious Animal Getting Kick Which Hastens Death.

John McCuarg, a member of the county board, was killed by a horse during a fight. The horse was vicious and gave McCuarg a kick which hastened his death. The fight took place in a public place and was witnessed by a large number of people.

McCuarg was a well-known member of the county board and his death is a great loss to the community.

The horse was a vicious animal and was kept in a public place. It is hoped that the authorities will take steps to prevent such incidents in the future.

Charles Herberich, who was charged with the murder of a woman, is now awaiting trial in jail.

CITY UNION

AT Y. M. C. A.

Mrs. S. L. Wiley Gives Lecture on Her Trip Abroad.

Tells of Impressions Gained of People and Places on Her Travels.

A city union meeting of the young people's religious organizations was held at the Y. M. C. A. last evening. It was the regular business session of the month, but after the routine business was completed Mrs. S. L. Wiley, who was in charge of the Fresno exhibit at the Portland fair, gave a talk on her recent eight months trip abroad. Mrs. Wiley is a highly interesting talker, speaking in a conversational style that creates an intimate interest in her hearers. She is an artist of no mean ability, and to make her lecture more impressive and more easily understood, a number of sketches, both in water colors and oil, were exhibited about the auditorium. The lecture treated of Italy and north Africa, and especially of Egypt and the Nile. Mrs. Wiley and her party sailed from New York in the fall of the year. Gibraltar was the first stopping place and the tourists were permitted to visit the fortifications which overlook the strait. From here the party went to Tangiers. At the time of the visit the government of the state was in such an unsettled condition that it was impossible for anyone to travel in the country, and the party was compelled to confine its visit to the city. The country under Moorish rule was described as backward in the development of its resources and the Moor himself as cowardly and untrustworthy. Algiers and Tripoli were visited next and were found to be busy markets of trade under French government. The caravans come in from the desert laden with dates and ivory, and the people were industrious. Algiers is built mostly of white marble and presents a cleanly appearance.

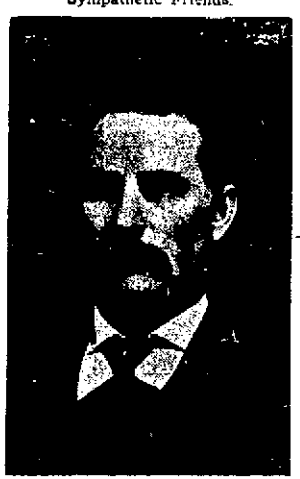

Leaving Africa, the party went to Naples in Italy and it was just previous to the time of the destructive eruptions of Vesuvius. From the Bay of Naples Mrs. Wiley sketched the city and then smoking volcano in the background. The streets were spread with ashes from the mountain and every morning the people had to shovel the ashes from their doorways. Earthquakes were frequent in the city and most of the tourists were glad to leave the city after a brief stay. A trip up the side of the mountain was taken and a point was reached where the lava was so hot that lunch could be cooked beneath the surface. Rome was the next place visited. Several days were spent in sight-seeing at St. Peter's and the Vatican, and Mrs. Wiley was granted a permit to visit the pope.

The party then crossed the Mediterranean to Egypt. Mrs. Wiley described the vast system of irrigation, with the large concrete dams and reservoirs. The valley is covered by a network of canals. In Egypt, especially, the work of the missionary societies is apparent and the Presbyterian missions are the most successful.

Mrs. Wiley could not complete the story of her trip in the one lecture and was compelled to stop on account of the lateness of the hour. When she had finished the talk the meeting passed a vote of thanks and appreciation for the lecture.

IS LAID TO REST BY MANY FRIENDS

Funeral Service of George S. Holden Draws Large Gathering of Sympathetic Friends.

George S. Holden.

Aud a profusion of beautiful floral offerings, and in the presence of many friends who joined the bereaved relatives in carrying out the last sad rites, the remains of the late George S. Holden were laid to rest yesterday afternoon. The services were conducted in the undertaking chapel of Stephens & Bean by the Rev. Harvey S. Harmon, under the auspices of the Masonic and Odd Fellows and Fraternal Brotherhoods.

Several eulogistic hymns were rendered tenderly by the church quartet, many of them being "Nearby, My God, to Thee" and "Gone, Kindly God." The services were conducted in the undertaking chapel of Stephens & Bean by the Rev. Harvey S. Harmon, under the auspices of the Masonic and Odd Fellows and Fraternal Brotherhoods.

The family of the deceased are recipients of deep sympathy on all sides, and the death of the head of the house is regarded as an irreparable loss to all who enjoyed the friendship of the departed man.

The interment was in Mountain View cemetery, where a fine tombstone will be erected shortly.

BORN.

NORRIS. In Fresno, November 12, 1906, to the wife of Dr. H. Norris, a son, ALBERT H. NORRIS, November 12, 1906, to the wife of W. L. Aubrey, a daughter.

SACRAMENTO, Nov. 12. This morning, says the Sacramento Union, was the saddest day in the life of the Southern Pacific railroad, committed suicide by taking carbolic acid. He was about 50 years of age. Keeler had had domestic troubles.

Sale of Laces and Embroideries Slightly Damaged by Water

During the recent rain a drain pipe running through that portion of the basement where our laces and embroideries are stored broke. And before the break could be repaired a large quantity of these goods were wet. However, as it was clear, pure rain water the damage was not severe, and after a thorough drying the goods were actually ready to be put back into stock. But this is not the Einstein method of doing business, as soiled goods must be sold as such, no matter how slight the damage may be. Hence these extraordinary bargain prices for today. Be on hand early, ladies, as such offerings as these do not last long in this store.

CITY HEALTH BOARD MEETS

Dr. Hayden Condemns Midnight Whistling.

Special Attention Being Given By Physicians to Meat Inspection.

Meat inspection and scavenger wages were given their share of attention at last night's meeting of the city board of health. It was the regular monthly meeting, and all the members of the board were present.

City Health Officer Hayden reported as follows:

FRESNO, Cal., Nov. 12, 1906.—The Honorable Board of Health, Fresno, Cal., Gentlemen: I herewith submit for your consideration my report for the preceding month as follows:

The health of the city is better than usual at this time of the year, owing in part to the prevailing healthfulness of the weather and in part, we flatter ourselves, to the increased better sanitary condition of the community.

The contagious diseases reported to this office have been few in number, namely: Diphtheria two, no fatalities; smallpox one, promptly removed to the pest house, where it is running a favorable course. As to typhoid fever, there have been four or five cases reported here but I am of the opinion

that I do not hear or all the cases unless they prove fatal when, of course, I get the certificate through the regular channels. Now, this is not as it should be, for it is important that the health authorities be advised of all the cases they may or may not have.

However, this board need not feel ashamed of the number of typhoid cases except for one reason and that is the fact that it has been so effectively shrouded in a community like this that there should be such an annual loss of life from typhoid. For it is all practically preventable, and not one of the things that we can lay to an inscrutable Providence. I again ask this board to condemn all wells that can not be demonstrated to be at least 100 or more feet deep and cased off from all strata bearing water of less depth than that. And make that condemnation effective by obtaining from the city board of trustees an ordinance embodying this idea and further making it a misdemeanor for a property owner to have such a well on his premises. We have just two sources of typhoid in our city and they are the cases that are brought from out of town here for treatment and those that originate here from the use of polluted water obtained from these shallow wells.

I would recommend a gradual abandonment of the wells like this, just as fast as the water company can put in the mains to these places unsupplied with city water. I would require a total and immediate abandonment of all wells and wells on premises at this time contiguous to the water mains I would require to be abandoned at once on a week's notice from the sanitary inspector. This saving of life and health is up to this board to recommend and to the city trustees to pass the requisite ordinance.

Births and Deaths.

The total number of births reported for the month of October, 1906, were thirty-four, of which eighteen were female and sixteen were male, all whites.

The total number of deaths was twenty-eight, white twenty-two, yellow six, female eleven, male seventeen, and the reported causes of death were as follows: Typhoid fever, five; tuberculosis, four; heart disease, three; brain fever, two; pneumonia, two; kidney disease, two; accidental, two; gastro-enteritis, one; convulsions, one; apoplexy, one; all other causes, five.

As you will observe, typhoid and tuberculosis are the leading causes of mortality here. And right here I wish to make another recommendation in the matter of the control of tuberculosis, and that is this: That each case be reported and registered with the health office. The advantages of this plan have been demonstrated by scientific men and are shown to be that the authorities can keep in touch with infected cases and in case of the removal or death of a case the vacated premises can be thoroughly fumigated and rendered safe for the next tenant.

Not only this but the patient can be placed with instructions on every important item of prevention and helped to render himself innocuous to those of his own family and others coming in contact with him.

It has been demonstrated that this method has had a very marked effect in preventing the spread of tuberculosis. Why not begin right here in our own city by getting the requisite ordinance passed and not wait for the state legislature? If we wait for state legislation much valuable time will be lost, also many valuable lives. Make typhoid and tuberculosis, both immediately reportable by the attending physician as is now the case with smallpox and diphtheria and let us do something to stop this onward march of these two destroyers of mankind.

So far as I am aware there is little or no attention paid to the fumigation of houses by landlords after cases of tuberculosis. The health authorities not being cognizant of the locality of such cases do not know where to look for them in order to enforce this provision of fumigation. Whereas if there were compulsory notification and registration of every case the matter of fumigation could be enforced and the next tenant be rendered safe in occupying the premises.

Now, while we are getting let us

restores your stomach and digestive organs in a normal condition and see how quickly the hundred and one little ailments troubling you will disappear. It is the safest medicine you can take. One bottle of

HOSTETTER'S STOMACH BITTERS

"city" plenty and have the whistle ordinance amended. As it stands, it is cumbersome and of no particular benefit to any one for whom it was made. It is a valid reason why we as a people should not have the hours from 12 o'clock, midnight, entirely at our disposal for the purposes of undisturbed slumber and rest. As it is, this period of the night is liable, and is often, disturbed by the diabolical strains of some of the locomotives of the early morning trains. There is one person on the 3:15 Santa Fe road who is a particular offender in this matter. He will begin at the north line of Belmont, and not at every crossing thereafter, but at very short intervals will let out blasts that will awaken nervous and sick people everywhere within a mile of his demoralizing machine. If this noise of the night were necessary in any particular it would be a different story, but the train dispatcher knows that he is coming, for in these days of the telegraph and block system the locomotive is as useful as the terminus and appendix. I wish to recommend, and hundreds of our people will second the motion, that the use of steam whistles be prohibited between the hours of 12 o'clock (midnight) and 6 o'clock a. m. within the city limits, and that there be attached a clause making it a misdemeanor to use the same during any time within those limits except for fire alarm. Locomotives are provided with good and sufficient bells and under every purpose of warning at street crossings and have the advantage of not awakening every light sleeper within a radius of two or three miles.

Hospital for Contagious Diseases.

Another instance has occurred the past month impressing on us the need of a hospital for contagious diseases other than tuberculosis. In this case it was a case of diphtheria occurring in the family of a foreigner who is not conversant with our ways of doing things here, and in a place where the day and night to enforce the required quarantine. Now, if this child could have been removed to a hospital suited to the treatment of such cases it would have saved this useless expense and at the same time would have allowed the father and mother to have continued their daily vocation after proper fumigation and a short period of isolation. As an illustration in practice I would call your attention to the fact that we never have but one case of smallpox at a time for the reason that we immediately remove the infected patient to the pest house at once and keep him there under strict isolation until all danger is past of his infecting any one else. And the same thing could be done with other contagious diseases.

The Dairies.

The dairies are in good condition with one exception, and that one is the filthy dairy. Owing to a recent move he has not yet got his plant up to the requirements and I have visited him and given him instructions as to what he wants to place. And of course if he does not attend to the matters promptly I shall ask this board to revoke his license.

Retesting the Dairy Herds.

Beginning the first of January next I wish to ask the board to require the testing again of the dairy herds with the tuberculin test. According to the test made formerly we need a very small percentage of tuberculosis in our dairies and we are anxious to maintain this condition by cutting out at frequent intervals any infection that may by some unknown channel get into the herds. By some of the later reports, bovine tuberculosis many times more virulent than the human tuberculosis, and we wish to take every precaution to safeguard our milk and cream product.

Prof. Koch was evidently mistaken

when he declared that bovine tuberculosis was not capable of infecting the human animal. Scientists the world over look exception to his dictum and went to work to disprove the statement, and have done so to the satisfaction of most authorities. Respectfully submitted,

T. M. HAYDEN, M. D., Health Officer.

Plumbing Inspector Ellithorpe reported that he had issued eight sewer permits during the month, inspected twenty-five plumbing jobs and looked over twenty-eight plans and specifications. In three places he had found water heaters disconnected from the sewers. Three applicants for licenses as journeyman plumbers have been passed.

Meat Inspector.

The meat inspector reported as follows: Fresno, Cal., Nov. 12, 1906. To the Honorable Board of Health, Fresno, Cal.: Gentlemen—I herewith submit my report for the month of October.

I have made my regular trips to all of the slaughter houses and have had them kept in good sanitary condition. I found some bad sausage meat and had it destroyed.

I have had greens put on all sausage kettles and have had them cleaned up. I have had Boles & Henderson clean out their cellar and put it in good shape.

I have called on the fruit stores and restaurants and find they are keeping their places in much better condition than when I first began to look after them. I find it does a great deal of good to go around every few days and see what they are doing.

I have inspected all stock that has been killed at the different slaughter houses and find all stock in healthy condition.

The O. McFarlane company has killed the following stock:

Cattle 550
Sheep 700
Hogs 200
Calves 100

The New England market has killed the following stock:

Cattle 150
Sheep 150
Hogs 150

Layton market has killed the following stock:

Cattle 100
Sheep 500
Hogs 50
Calves 50

The Park market has killed the following stock:

Cattle 45
Hogs 45

The total amount killed was 2,870 head, which I inspected and found in healthy condition. Respectfully submitted,

F. J. BURLEIGH, Meat and Food Inspector.

Sanitary Inspector Machen's report

was as follows: Fresno, Cal., Nov. 11, 1906. To the Honorable Board of Health: Gentlemen—I most respectfully submit the following report for the month of October, 1906:

During the month I have made an inspection of the bakeries, restaurants, ice cream and candy shops, produce stores, meat markets, flower stalls, the business part of the city and the resident parts. I also made an inspection of the city public schools. I find

the buildings all kept in first-class condition and the ventilation seemed good. The temperature in most of the rooms ranges from 68 to 70 degrees.

There has been ordered printed 1,000 copies of an ordinance recently passed relative to the keeping vacant lots free from grass and weeds. These notices will be mailed to all non-residents as soon as their addresses can be ascertained.

I have requested the owners of the town crows to clean their places thoroughly before the next winter sets in. I also found two places where three crows were kept, which is contrary to our health ordinances. The owners have disposed of one in each place, which leaves their herds within the limit.

I found a barber shop running without the proper sewerage, but after due notice the owner has secured a new location with proper sanitary plumbing. Respectfully submitted,

SANITARY INSPECTOR.

The reports were all read and passed. Discussion of the proposal to reduce the number of inspectors brought out unanimous disapproval on the part of the physicians, and Dr. Hayden was appointed a committee to urge upon the city trustees the need of continuing the present work of the board of health in all departments.

In the matter of meat inspection, special reference was made to the slaughter house connected by Peter River on Railroad avenue. This man is said to buy up cheap and diseased meat and sell to restaurants in this city. The meat inspector was directed to give the place special attention. He was also directed regularly hereafter to report in detail regarding the conditions he finds at various slaughter houses.

With regard to the paragraph in the health officer's report on the nuisance of late night whistling, the secretary was directed to communicate with the railroad company to secure if possible a cessation of the whistling after midnight.

The matter of private wells was also taken up, and a conference is to be sought with the water company to get it to lay mains in all the blocks that are thickly settled, so that the board may take steps to compel residents to use city water.

The recent return to the "open town" system in the tenderloin, without accompaniment of regular inspections, under the authority of the board of health was deplored on account of disastrous effect it is having on health reports.

BARTON ANNOUNCEMENTS

"In the Bishop's Carriage" Tomorrow Night—"The Holy City."

Prof. Lee, the hypnotist, will be seen at the Barton for four more performances, tonight, Thursday, Friday and Saturday nights. There will be a change of program tonight. Seats are on sale all day; prices 10, 20 and 30 cents.

"In the Bishop's Carriage"

"In the Bishop's Carriage," the dramatization of M. J. Michaelson's novel of the same name, is one of the great hits and distinct dramatic sensations of the present theatrical season. The play has created more comment than any play produced in recent years. Its presentation at the Barton tomorrow night has aroused interest among local theatergoers.

The play differs from the book in many important respects. The first act shows the home of the Russwins, where the Bishop brings "Nance Olsen," the thief, under the impression that she is a college student temporarily out of her mind. Latimer meets the girl, and though he deems her true character grows interested in her.

In the second act, which occurs in Latimer's rooms, this interest has ripened into love. With Tom Dorgan, her guide in dishonesty, Nance attempts to rob her new friend, Latimer, in order to free Nance of his influence. In the third act he proposed marriage to Nance, now turned vaudeville performer, and she refuses him because she believes that she still loves for Dorgan. One look at Dorgan, when having escaped from prison he confronts her, disposes of this idea. She refuses to go away with him. Dorgan to be revenged tells Latimer that Nance is not what she should be.

The fourth act clears up this matter and ends with the union of Latimer and Nance. This theme is treated brilliantly in a comedy vein, and often brings about powerful situations. Miss Jessie Busby, well known in many important plays, interprets the role of Nance Olsen, and the many encomiums she has been accorded by critics and public speak in generous terms of the marvelous ability of this rising actress. Seats are on sale all day.

"The Holy City"

"The Holy City" will be the attraction at the Barton next Sunday and Monday nights, November 18th and 19th, and will undoubtedly be one of the strongest dramas that will visit this city this season, and the play-lovers in general will appreciate the efforts of Manager Barton that will enable him to give them such a theatrical treat. This production is branded a success by both press and clergy. It is a difficult matter to tell which character is most appreciated. Of moment the audience is held spell bound by the deep feeling of the character John the Baptist, in the next the clever work in the difficult role of the loving but vengeful Salome, the bold and noble declaration of Marins, the realistic portrayal of a mother's love by Elizabeth, the mother of John, the childlike innocence and penitence of the outcast, Mary Magdalene.

The costumes, scenery and mechanical effects are spectacular and attractive, the transformation scene, the introduction and the grand finale in Jerusalem are beautiful in the extreme. The sale of seats will open next Thursday morning at 9 o'clock.

Iroquois Theater Co. Discharged.

TRENTON, N. J., Nov. 12.—The Iroquois Theater company of Chicago, whose theater was destroyed by fire three years ago, attended by great loss of life, was discharged from bankruptcy today by Judge Lanning in the United States court here. The company had liabilities of \$2,000,000 and no assets.

Boiler Exploded in Shops.

CLEVELAND, Nov. 12.—Five men were killed and fifteen or twenty others badly injured by the explosion of a boiler in the shops of the Lake Shore and Michigan Southern Railroad at Collingwood, a suburb, this afternoon.

Mark Twain Has Bronchitis.

NEW YORK, Nov. 12.—Mark Twain's attack of bronchitis, which overcame him from being present at the dinner Saturday night to Henry M. Alden, continued yesterday to hold Clemens a prisoner in his room at his hotel, but it is not serious.

BUNKO MEN GET 6 YEARS

Green Says Dutra as Guilty as They Were.

Declared the Farmer Entered Into Scheme to Fleece One of the Bunko Steerers.

HANFORD, Nov. 12.—J. R. Green, alias Williams, and J. C. Harris, who pleaded guilty on Oct. 17th to bankroting Mike Dutra out of \$5,000, were today sentenced by Judge M. S. Short of the Superior court of Kings county to serve six years each in the San Quentin penitentiary. When brought into court the prisoners maintained their gentlemanly bearing and air of self-possession which has marked their every appearance in public, yet when asked by Judge Short if they had anything to say before sentence was passed they each betrayed a slight emotion. Green, the elder, said that if Dutra had not been equally as guilty as they, the crime would never have happened. He then stated that he was 72 years old and that he did not wish to die in prison. He asked the clemency of the court. J. C. Harris made the same request, and then Judge Short called upon District Attorney Jacobus for a statement of the prosecution's side of the case. Jacobus reviewed the testimony given by Dutra at the preliminary hearing, and as the attorney spoke it was evident that all the prisoners concerned regarded Mike Dutra's story as "fishy." Sheriff Buckner then testified (not under oath) that the prisoners told him that Dutra lost the \$5,000 to them by gambling, describing in detail how he (Dutra) and Harris entered into a compact to fleece the supposed tramp (green) out of his money, agreeing between themselves that the tramp would lose his wealth some way and he might as well lose it to them.

Sheriff Buckner stated that in his opinion the prisoners could put the county to a considerable expense if they had demanded a trial, and inasmuch as they had pleaded guilty, and that every cent of Dutra's money had been returned to him, these facts should be given due consideration when sentence was passed. Before sentence was passed Harris said that this was his first offense.

Mrs. Annie A. Douglas, wife of the local Southern Pacific section foreman, C. J. Douglas, died yesterday afternoon in Goshen. The remains were brought to Hanford and the funeral services will be held at 11 o'clock tomorrow in the Catholic church. Interment will take place in the Catholic cemetery.

ENGINEER WORK ON SOUND FORTIFICATIONS

General Mackenzie, Chief of Engineers, Estimates that \$15,000,000 Is Required.

WASHINGTON, Nov. 12.—General Andrew Mackenzie, chief of engineers, has reported to secretary of war that \$10,000,000 will be required to complete the engineering work upon the fortifications projected by the board convened under the president's order of Jan. 1, 1905.

General Mackenzie states that the following amounts, among others, can be profitably expended during the next fiscal year in the principal river and harbor works as follows:

Deep water harbor, San Pedro bay, California, \$102,000; Columbia river between the foot of the Delta and the head of Celilo Falls, \$550,000; canal at the Chesapeake, \$105,000; Columbia and lower Willamette rivers below Portland, \$450,000; mouth of the Columbia river, \$1,000,000; Honolulu harbor, Hawaii, \$400,000; Mississippi river (commission's estimates), head of passes to the mouth of the Ohio, with salaries of commissioners, \$3,000,000.

S.S.S. CURES CATARRH

Catarrh cannot be washed away with sprays, inhalations and such treatment, nor can it be smoked out with medicated tobacco, cigarettes, etc. When you attempt to cure Catarrh with such things you are wasting time and allowing the impurities and poisons in the blood, which produce the disease, to get so firmly rooted as to become not only a disgusting trouble, but a very dangerous one. The annoying symptoms of ringing noises in the ears, "hawking and spitting," headaches, mucus dropping back into the throat, impairment to the senses of taste and smell, and a feeling of general debility, prove that there is a deep-seated cause for Catarrh. This cause is a polluted and unhealthy condition of the blood, and the disease cannot be cured until this is removed. The only way to get rid of Catarrh permanently is to purify the blood, and S. S. S. is the ideal remedy for this purpose. It soon clears the system of all impurities, purges the blood of all catarrhal matter and poisons, and effectually checks the progress of this disgusting and far-reaching disease. S. S. S. puts the blood in perfect order, and as this pure, healthy blood goes to every nook and corner of the body Catarrh is permanently cured. Book with information about Catarrh and medical advice free.

Think of It

HALF MOON BAY is San Francisco's only bathing beach. Los Angeles has many, San Francisco has but one.

HALF MOON BAY is only forty minutes from the heart of San Francisco by the new (double tracked) electric railroad.

Half Moon Bay is bound to be a big city, nothing can stop it. A perfect bathing beach; a mild climate, sheltered from the wind and fog; a swift electric railroad; amusement features costing a half million dollars; proximity to San Francisco; these are the things that are making HALF MOON BAY.

We have the best property at Half Moon Bay. Get a lot in Miramar, adjoining Balboa City, and see it double in value by next February.

Hundreds of successful business men have already bought at Half Moon Bay. These men know where to buy—follow the lead of the successful.

A few choice lots left. Easy terms if desired.

The Lonely Life

The Tragic Confession of a Spinster, Who Realizes That No Fame or Wealth Can Compensate for the Solitude of Her Life.

In this article the author, whose name for obvious reasons we are not at liberty to disclose, drops for once the mask which she in common with other "Bachelor Maids," is accustomed to turn to the world.

Though no longer young, she frankly says she longs for the companionship of a husband and the care of children. The circumstances which have kept from her the happiness which these blessings bring are stated with the same directness which characterizes the whole article. It is the life-story of a "successful" woman, a drama of real life in which the last act is a tragedy.

SOCIAL AND CLUB NEWS

Miss Mary Maxwell entertained on Sunday evening at one of the merriest little dinners of the week. The rooms were all prettily bedecked with red roses, geraniums and chrysanthemums artistically arranged and the dinner table was exceedingly inviting in its dainty appointments and center piece of pink roses and sunflowers. The material side of the jolly little feast was supplemented with a flow of wit and humor and general merry making which made it a particularly pleasant memory for the fortunate guests. The ice of formality was broken in the beginning when each guest found at his place a pen and ink sketch of himself in his favorite pose and with an appropriate verse betraying his pet hobby or suggesting a joke, which his friends, laughing, took up and carried out in the clever work of the hostess, who proved herself an ideal entertainer. The jollity so pleasantly begun continued through the evening, which was enjoyed by the following: Mr. and Mrs. Z. T. Maxwell, Miss Adelaide Gruetz, Miss Emily Bouchers, George W. Jones, Clarence Edwards and M. E. McCormick.

The Querry Club enjoyed an intensely interesting afternoon yesterday meeting with Mrs. O. B. Doyle to read and talk over Browning's drama, "The Blot on the Scutcheon," comparing the love of Mildred and Meriton with Shakespeare's lovers, Romeo and Juliet. This comparative study is one of the fascinating phases of the Shakespeare work as Mrs. Miller outlines it and brings out many interesting points adding immensely to the students' interest in character study. The parts were read by different members of the club and at the end of each act the drama discussed fully. Mrs. Miller will meet with the club next week at the home of Mrs. W. R. Forney when the reading of Romeo and Juliet will be finished and papers on the play given by the various members.

Mrs. T. W. Patterson has returned from a week's visit in San Francisco.

Dr. and Mrs. J. D. Davidson returned on Sunday night from a six week visit with Mrs. Davidson's mother in Nashville, Tennessee. The doctor visited some of the large Chicago hospitals. Mrs. Davidson accompanying him there. They are both delighted to be back in California and among their old friends in Fresno.

The North Park Circle of the First Presbyterian Church will meet this afternoon with Mrs. W. P. Ellis on Northcamp avenue.

Mrs. Edward Elliott will entertain a few friends at luncheon on Thursday in compliment to Mrs. D. P. Verdant of New York City.

Those who knew H. P. Baumgartner, who was for several years connected with the San Joaquin Power Company in this city, will be glad to hear the news of his wedding in Oakland last week, told in the following clipping from an Oakland daily:

The wedding of Miss Helen Julian Anderson, the daughter of Captain and Mrs. Anderson of Fruitvale, to Henry Baumgartner of Los Angeles, was one of the most elaborate and brilliant of the week. Mrs. Baumgartner is a charming woman, talented, cultured, gracious of manner, and altogether delightful to know. She has a very beautiful voice and sings charmingly. She was prominently associated with the Wednesday Morning Club, a coterie of local musicians that go in for the best of their art, and has been prominent in music circles generally. The wedding was with a beautifully planned ceremony. A wealth of flowers made the rooms lower-like and a half dozen of the bride's girl friends as the bridal procession moved through the parlors. The bride's gown was elaborate and extremely beautiful. It was fashioned after the princess model and of cream satin, with trimmings of rare lace and bands of mauve velvet. The bridemaids wore pink and white crepe de chine and carried

at the Y. W. C. A. rooms yesterday afternoon the regular monthly meeting of the board of directors was held. The association affairs are running along very smoothly and the various sections had much of interest to occupy the members. The gymnasium classes are fully organized and down to hard work. There is much enthusiasm manifest in the gymnasium work and the basketball team are especially jubilant with ball teams are especially jubilant with the sport and match games later on.

A social and literary event of the coming month will be a Shakespeare recital which Miss Hersey, the physical director, will give. Miss Hersey's capabilities have been manifest on one or two occasions and in the coming dramatic entertainment the public will have further opportunity to judge of her talent.

IN THE LODGE ROOM.

The Eagles held one of the most interesting meetings of the season last night, during which two eaglets were initiated into the order. They were John F. Martin and J. F. Pimental. Others will follow on the next meeting night, and a number of applications are now under consideration. The business session and initiation rites were conducted by the team, with Judge Briggs as worthy president, Dr. Thorne as worthy vice-president, Leo Stone as worthy secretary and E. L. Zeman as worthy conductor.

A large number of the members were present, the absentees being only those unavoidably detained by other obligations. After the initiation and the concluding of the routine business of the lodge, all present adjourned to the outer hall to a banquet. The social session was an enjoyable affair, replete with merriment and entertainment lasting into the small hours of morn.

Every meeting closing this year will have features of keen interest in the way of initiations, socials, smokers or other events of the kind, and with the coming of the new year, it is expected that the aerial will gather to its nest many new birds of prominence and promise. Aerie 39 is in an excellent condition in every way. Few lodges are in higher financial standing despite the lavish disbursements during the San Francisco calamity. No illness or distress of any kind exists among its circle, and the happy luncheon which gathers weekly to the spacious halls of the order, enter with a care free determination to make the most of the night in the society of their lodge fellows.

Odd Fellows.

Fresno lodge, L. O. O. F., departed from its ordinary routine of business affairs last night and after the closing of the first degree upon a number of candidates, turned its attention to a sumptuous repast under lively and interesting with several speeches. The degree work was of special importance last night as it was put on by the Fowler lodge drill team of twenty members, who demonstrated their good form and ability to put on satisfactory work. The team was the guest of honor at a social hour, which was in the hands of

the following committee: A. K. Dick, J. C. Howard and S. L. Platt. The first degree was conferred upon Rev. Wallace of Central California lodge, A. M. Albor, J. F. Dostal and George McCarren. After the ceremonies a banquet was given, at which William Glass acted as toastmaster.

Visiting Odd Fellows from Fowler who made addresses were: District Deputy Grand Master Sam Burnett, Sherman Mauley, Ed Hamilton, O. L. Swearingen, C. C. Hudson and Fred Nelson. Visiting brothers from Texas and North Dakota were also heard. Local speakers were: G. W. Cartwright, W. A. Cole and M. H. Drew.

Fresno lodge, Fraternal Brotherhood, met last night with an enthusiastic gathering of members to welcome the new district deputy, C. R. Vance of Los Angeles, who has come to start the lodge on its winter campaign for members. He will be assisted in his work in the district by a corps of workers who will arrive within a week or two and be distributed among the various lodges of this district. Fresno will be Mr. Vance's headquarters, from which he will make side trips to the other lodges as necessary. Probably at the next meeting he will have a plan of work to present to the members, who are prepared to co-operate heartily with him in his undertakings. On account of the death of George Holden, an esteemed member, the social side of the session was dispensed with last night.

Navajo Council, Degree of Pocahontas, was largely attended last night. A number of the old members were out and given a cordial welcome. As there was considerable confusion resulting from the twice a month plan of meeting, the council holds sessions weekly now and some interesting meetings are promised for the coming winter months. Interest is on the increase and a number of pleasant social affairs are on the tapis for the coming season. Mrs. S. Lewis of Minniquim council, San Jose, was again with the council last night and will probably be a frequent and welcome visitor, as she expects to spend most of the winter here. The drill team did some serious work last night after the business session and a final wind-up included a social hour with refreshments. One application was received and initiation will be a feature of next week's gathering.

Maccabees.

Fresno Tent No. 81, Knights of the Maccabees, and Pride of the West Five, lady Maccabees, joined forces last night in giving one of the most successful affairs of the season. A fine program of music during the evening entertained the audience and later there was a splendid spread, after which the carpet was rolled and dancing and games occupied the remainder of the evening. The following program was given: Instrumental selection, Sir Knight H. E. De Silva; recitation of an original poem, Mrs. Lillian Wright; song, Jessie W. and John I. Southwick; banjo solo, S. C. Longwell; reading, "To the Swells of Fresno," Mrs. Anna Howard; song, Lizzie Boyd; address, H. M. Robinson; musical selection, "Declaration of San Francisco," Miss G. L. Crawford.

Eastern Star.

Madison Chapter, O. E. S., had a busy session last night, initiating two candidates and electing officers for the ensuing year. Mr. and Mrs. S. L. Platt were initiated into the mysteries of the chapter. The election resulted as follows: Worthy Matron, Mrs. J. P. Noble; worthy patron, Dr. J. R. Walker; associate matron, Mrs. Lizzie Smith; associate conductress, Lizzie C. L. Sheriff; secretaries, Mrs. C. L. Fasset; treasurer, Mrs. A. B. Lisenby. The other officers are appointed by the worthy matron and in two weeks will be held installation.

NEWS NOTES OF VISALIA

Loss of Certificate of Stock in San Francisco Fire Leads to Suit.

VISALIA, Nov. 12.—An action was begun in the Superior court today by William Johnson against the Davis Den Consolidated Oil company and L. R. Stok, 1904, he purchased 2,000 shares of stock of Loeber, but neglected to have the transfer recorded on the books of the company; that the certificate was in a trunk in San Francisco on the date of the earthquake and fire last spring and was destroyed. An order of court is asked for directing the issuance of a duplicate certificate of stock to plaintiff.

Alfred Nuggett is attorney.

The picked team from Fresno which journeyed to this city yesterday was defeated by the Grants by the score of 11 to 0. Tufts was hit in the jaw by a thrown ball in the third inning and thereafter became ineffective. Six hits and four runs were secured off his delivery in the fourth. Stevenson's twirling was a war to run-getting, but four safe ones being secured by Fresno in three innings. He struck out fourteen men, Tufts five and Morton 1. The last named succeeded Tufts in the box in the seventh.

The board of supervisors this morning began the official canvass of the votes. The task will require several days.

William T. Arrill and Rosa L. Livingston, both of Bakersfield, were married this morning, Justice J. S. Clark officiating.

Articles of incorporation of the First Presbyterian church of Lindsay were filed today. There is no capital stock. The directors are John McKeller, J. J. Vayn, J. F. Ball, W. C. Kirker and C. B. Moore.

Mrs. Helen Sexton is here from Santa Barbara on a business trip and visit combined.

Ben M. Madrox, J. F. Jordan, George H. Hodder, C. J. Giddings and W. J. Bell left this morning for Fresno, leaving behind subcommittee on the federal grand jury.

Morley Madrox returned this morning from Berkeley, where he went to attend the Berkeley-Stanford football game.

K. of P. Insurance Manager.

JACKSONVILLE, Ill., Nov. 12.—Charles A. Barnes, supreme chancellor of Knights of Pythias, tonight announced that Zenobius, insurance commissioner of Wisconsin, will, after January 1st, be general manager of the insurance department of the Knights of Pythias.

Short Shift for Mutineers.

KRASNOYASK, Siberia, Nov. 12.—The soldiers of the local garrison who struck a sergeant and an officer yesterday, were immediately tried by court martial and shot.

OWASSO, Mich., Nov. 12.—Bert Seeley, who was under suspicion in connection with the murder of Edwin Carwin, in Westhaven township last Wednesday, was found dead in bed today and lying beside him was his young wife, also dead.

INFORMATION ARE DISMISSED

District Attorney Jones Clears Up Records.

Venire of Sixty Jurymen Ordered for Truitt Murder Trial.

A grand clearance was made of all time criminal cases yesterday in the Superior court. District Attorney Jones desired to clear up his books as far as possible before retiring from office on the first of the year, and took all the old cases that it was considered unnecessary to bring to trial.

Junior Foreman was a boy charged with grand larceny in the spring of 1903. He pleaded guilty in the juvenile court and was allowed to go on his own recognizance. Six months later another boy taken into the juvenile court in 1903 for grand larceny and allowed to go. E. W. Jaggars, who has been one of Supervisor Burleigh's road men, was arrested on a charge of presenting false claims. He was tried on one charge and acquitted by a jury. A second charge never came to trial. Indefiniteness in the drawing up of the claim made conviction very difficult. A similar charge against Dominie Imperier was also dismissed yesterday.

Julia Tickle, of unhappy fame under the name of Dr. Jones, was brought to trial in 1903 on a charge of abortion. The jury disagreed, and no further evidence was secured.

A. Tomsund, a young man, was tried for grand larceny and sent to the lone state reform school. The criminal charge has been accordingly dismissed. In April of 1904, angry relatives of a young girl whom C. U. Cripe swore was over 18 years of age in order to secure a marriage license, had him arrested on a charge of perjury. As he married the girl and they have "lived happily ever after," the course of justice has not seemed to require prosecution.

D. Peretti was one of those arrested on a charge of murdering a Mexican in the west part of Fresno in 1904. There was no evidence to show that the accused was personally connected with the crime, and as the principal escaped, the matter never went to trial.

G. B. Ryan was one of two arrested on a burglary charge. He testified against the other man, one Kelly, who was sent up, and was then let go on his own recognizance.

B. Behrman was arrested for robbery at Firebaugh on March of 1903, but as the complaining witness could not be found when the time of trial came, nothing was done. Later Vlasovich was arrested about this same time for stealing bicycles. He was sent up for six years on one of the charges, and the other is now dismissed.

In the spring of 1903, a washhouse at Fowler was robbed, after which a Chinaman, Ah Hing, and a white highlander named Davis were arrested. Davis was acquitted, and Bing never came to trial. The case against the latter was dismissed yesterday.

Margid Domabellina was engaged, in the summer of 1905, in an irrigation contest and got into a fight which resulted in his arrest on a charge of assault with a deadly weapon. The evidence was conflicting, and the case never came to trial.

When Frank Grant, the constable at Firebaugh, next on a tear last year, he was arrested on two charges of assault with a deadly weapon and with intent to commit murder. Examination by physicians showed that he has an affection of the skull, that would prevent any conviction, he having been temporarily insane at the time. The two charges were dismissed.

Hugh L. Graham, a young man, was informed against in December of 1905, on a charge of burglary. The evidence was circumstantial, and he was allowed to go on his own recognizance.

A. J. Hillbrand, arrested last spring for lack of evidence. One charge against Antonio Viera and Jose Rodriguez, who were tried last summer on a charge of assault with a deadly weapon and one of them convicted, was dismissed.

Criminal Cases Set.

The trial of Jesse Truitt, colored, on a charge of murdering his rival in the affections of a young woman, having been fixed for December 2nd, a jury of sixty was ordered by Judge Austin for that day.

The trial of S. J. Hunter on a charge of assault had been fixed for December 12th, but by mutual consent was reset for December 10th.

Attorneys Ewing & Ewing for Willie Helm asked for an extension of thirty days for the preparation of a bill of exceptions to appeal to the Supreme court. This was granted by Judge Church.

Civil Proceedings.

Judge Austin entered an order denying the petition of Harrison and Dolansham for an injunction against the town of Selma in its action to prevent the above named men from carrying on their business of bringing liquor into the town.

The issue over the Fortcamp avenue sidewalk came to trial yesterday before Judge Austin, the case being that of W. D. Troncy and Judge against E. Knudsen and others. Attorney J. P. Leonard for the defendants made a motion for a non-suit, and the matter was taken under advisement on briefs.

Suit for divorce has been begun by Fannie Sarah Nielsen against Thomas Albert Nielsen. Sutherland & Barbour are attorneys for the plaintiff.

The seizure of the goods of C. B. Granger under an attachment proceeding, has resulted in the commencement of a suit against Sheriff Collins in his official capacity. It seems that in the store room formerly occupied by Granger on J street, S. D. Williams, the green grocer, had a cold storage plant valued at \$500. This was taken on the attachment, and yesterday Sutherland & Barbour began proceedings to recover for Williams.

Judgment, on default, was entered in favor of the plaintiff in the suit of the Valley Water company against J. W.

Livermore. L. L. Cory was attorney for the company. The case, which was an action regarding a contest over a water title, brought the plaintiff a judgment of \$134.15.

Probate Matters.

J. P. Butler has petitioned for letters of administration upon the estate of Arden W. Butler, deceased. The property consists of the twenty acres of land, worth about \$4000, \$450 in personal property and \$600 in cash. Hearing on the petition has been set for November 20th.

The sale of personal property from the J. C. Manlove estate was authorized.

The real estate and personal property of H. A. Jackson, for the murder of whom Elmer Helm stands accused, has been ordered sold for the benefit of the estate.

The administrator of the Mary J. Gibson estate has made final account, which has been set for hearing on November 20th.

Articles of incorporation of the C. L. Taylor company were filed. Henry C. Davis and James A. Marge of San Francisco and William M. Van Dyke of Los Angeles are the directors. The stock, \$150,000 in \$100 shares, has been subscribed to the extent of \$300 by the directors. The corporation is an investment company.

TAXPAYERS' LEAGUE ELECTS OFFICERS

Committee Will Confer With Supervisors About Proposed Alms.

house.

The Taxpayers' League is now completely organized and the near future a public meeting will be held at which addresses will be made by A. W. Vlasovich and Alex. Gordon of Sacramento and local speakers.

At the meeting yesterday afternoon of the executive committee organization was effected by the president, Judge M. K. Harris; first vice-president, John S. Dore; treasurer, James Porten; secretary, H. C. B. Gill. Judge Harris as president will also preside over the meetings of the executive committee.

The executive committee discussed the matter of the proposed alms house to be built by the Board of Supervisors at a cost of \$30,000. A committee was appointed to confer with the supervisors upon this matter. While the meeting was secret and only formal minutes were given out, it is understood that the executive committee considered \$30,000 too much to spend for an alms house. The entire plan of frame buildings was favored by many as more economical and better adapted to the needs of the poor.

A committee was appointed to arrange for the public meeting. All taxpayers, whether members or not, are invited to this meeting to learn of the purposes and scope of the league. The place and date of the meeting will be announced by the committee.

SWITCH ENGINE RAN INTO DEPOT

Abandoned By Crew, the Locomotive Demolished Building.

Causing One Death.

DETROIT, Mich., Nov. 12.—One man was killed and several injured, three of them badly, today when a Michigan Central railroad freight engine ran away and crashed into the Third street depot, tearing down a large section of the structure.

The dead: GEORGE E. NOOTH, Detroit.

The severely injured: Donald Thompson, assistant district superintendent of the Pullman company.

Earl S. McEuen, cashier Pullman office.

Bert Haney, Detroit, a Michigan Central conductor.

The engine was switching in the yards a mile from the station, it snail. The crew saw a passenger train approaching from behind and they thought a collision was about to occur and jumped from the engine. It was running at good speed and, unchecked, dashed into the station, tearing up a section (twenty-five feet wide). The second and third floors over this section collapsed. Both floors were in a jered-run, near which the engine struck. Haney was on the third floor and fell with the wreckage.

TRAINS ARRIVE FROM POINTS NORTH AS FOLLOWS:

2:15 a. m.—Santa Fe Overland from San Francisco, Stockton and way stations. Fresno sleeper not out.

ARRIVAL

BALLOONING ON MT. BLANC

Adventurous Voyage By Two
Italian Aeronauts.

Reached an Altitude of Six-
teen Thousand Feet Over
the Mountain.

MILAN, Nov. 12.—Details of the trip of the balloon Milano, which left the grounds of the international exposition last Sunday and arrived duly at Aix les Bains, after having traversed over Mount Blanc, have been received here.

The Milano has a capacity of 1000 cubic metres. The men on board were Tassoni, a survivor of the catastrophe to the balloon Regina Elena in the Adriatic sea last summer, and Crespi. The report received is from the latter aeronaut.

The Milano had splendid weather from the start and soon reached an altitude of 16,000 feet. The balloon was traveling northward over Mount Blanc and as it progressed the air grew colder and colder. Below them the travelers could see nothing except an extensive field of snow, broken by sharp peaks and dotted with frozen alpine lakes. The highest altitude reached was 20,500 feet. The rarefied atmosphere made it necessary for the men to resort to their supply of oxygen to keep alive.

At one point of the trip Unelli succumbed to the nervous strain and burst into tears.

On the other side of the mountain the balloon descended gradually and landed safely at Aix les Bains. A distance of 175 miles was covered in three hours.

CANADIAN RECIPROCITY FAVORED IN CHICAGO

James J. Hill's Views Are Shared By
Many Men Prominent in
Finance.

CHICAGO, Nov. 12.—Widespread belief in the advisability of reciprocity with Canada was expressed yesterday by Chicagoans as a result of the speech on the topic delivered before the Merchants' club Saturday night by James J. Hill. Many prominent men in finance and business declared, with scarcely a dissenting voice, that they were in entire accord with Hill's position.

It was pointed out that betterment of trade relations with our northern neighbor means an extension of the Canadian market to the products of the United States and that such an extension would probably benefit Chicago and the Northwest. Even men who were not in sympathy with the free trade ideas, expressed themselves in favor of some lowering of the tariff wall, as far as Canada was concerned. It was decided that American business men as a whole had lost through the absence of better trade relations with the Dominion.

Occasion also was taken to sound a note of warning that the establishment of improved relations should not be long delayed, for Canadians are declared to be changing to some extent from their former keen desire for reciprocity.

INDEPENDENT THEATER OPEN AT CINCINNATI

Another Link in the Shubert Chain
of Houses Free from the
Trust.

CINCINNATI, Nov. 12.—The newest link of the chain of independent theaters under the Shubert management, the new Lyric theater in this city, was opened today by DeWolf Hopper and Margaret Clark in "Happyland."

A fashionable and enthusiastic audience crowded the house, which is a beautiful steel and concrete structure, as nearly fire proof as possible, located within half a block of Fountain Square, the city's heart.

The Shubert attractions exclusively will play at the new theater.

FRATERNAL SOCIETIES.

ANTON BESOLD TOLD CONFLICTING STORIES

Temescal Canyon Murder Suspect
Had Various Explanations of
Wife's Absence.

LOS ANGELES, Nov. 12.—The preliminary hearing of Anton Besold, charged with shooting to death his invalid wife in Temescal Canyon last July, was resumed today.

J. H. Cameron, who purchased Besold's interest in a local meat market following the murder, told of the defendant's conflicting stories. Besold, while packing up his wife's jewelry and clothing, according to the latter's testimony, that his wife had gone to Summerland and that later she would join him and they would go to England. A few days later, Besold told him he had placed his wife in a sanitarium in Virginia.

A. M. Guldinger, the Santa Monica police judge and undertaker, described the location of the bullet wounds in the skull as being above and forward of the temples. The prosecution then rested its case.

Pending decision on a request of Besold's attorneys that the body be examined, the examination was continued.

ITALIAN VENDETTA ENDED IN CHICAGO

Man Who Elope With Young Italian
Girl Killed By Her
Father's Friends.

CHICAGO, Nov. 12.—Matale Viverso, an Italian, was found dying at midnight at Milwaukee and Ohio streets. He was taken to the county hospital and an examination showed three still-into wounds in his back and two bullet wounds in the back of his head.

According to the story told by his brother, Angelo Viverso, and two witnesses who refused to tell their names or addresses for fear of being killed, Matale eloped from Venice three years ago with the daughter of a merchant after the girl's father had refused to sanction their marriage. The father vowed vengeance, and it is believed he had friends in this country who carried out the vow for him.

The two witnesses, who claim to have seen the attack, and who are also Italians unable to talk English, told the police through the interpreter that shortly before midnight they were passing along Milwaukee avenue, when they saw two men approach Viverso from behind and attack him.

NEGRESS MURDERED AND THEN OUTRAGED

Two White Men Charged With Dis-
tasteful Crime In Birmingham.

BIRMINGHAM, Ala., Nov. 12.—The body of Annie Shirley, a negress, was found at Pratt City this morning, with indications that she had been criminally assaulted, after she had been murdered.

D. W. Sparrow, a guard of the state convict prison, and L. G. Stovall, a former guard, both white, have been held for investigation. It is said that cards and money alleged to belong to these men were found near the scene of the murder.

A CURRENCY CONFERENCE

Bankers' Committee Met Other
Finance Experts.

New York Chamber of Com-
merce Plan May Be Used
In Part.

WASHINGTON, Nov. 12.—Gratifying progress, according to the members who made at the meetings of the committee representing the American Bankers' Association and the New York Chamber of Commerce, who gathered here to endeavor to agree on a measure for the consideration of congress, giving authority to banks to issue emergency circulation in case of financial stringency. The meetings were presided over by President A. B. Hepburn of the Chase National Bank of New York City, chairman of the bankers' committee, and Joseph R. Branch of New York acted as secretary.

Secretary Shaw, Comptroller of the Currency Ridgely and United States Treasurer Treat were present. Without committing himself to any one plan, Secretary Shaw told the bankers of his desire for some reform in currency legislation, which, when put into practical operation, will meet all the legitimate demands of trade.

Two plans are being considered by the bankers. One proposed by the bankers' committee, which contemplates the appointment of a non-partisan committee of seven members, of which the comptroller of the currency shall be one, to pass on all applications by banks for permission to increase their circulation, and the other, advanced by the Chamber of Commerce of New York to make the issue of credit currency automatic.

WIRELESS SYSTEM ON PACIFIC COAST

Stations May Be Established In Sev-
eral Towns For Reports of
Legislature.

SACRAMENTO, Nov. 12.—Representatives of a company formed to install a wireless telegraph system on the coast were in this city today. Senator Smith of Los Angeles, who is interested in the venture, says it is the intention to have stations in all coast towns and some of those in the interior. It is proposed to construct a central station here and furnish telegraphic messages of the session of the legislature that meets in January. It is proposed to make the stations permanent.

PARIS, Nov. 12.—Foreign Minister Pinchon in an interview today regarding the Moroccan situation declared that the understanding between France and Spain, concerning the measures to be taken in Morocco was not complete.

DRUMMERS FOR BRYAN

Commercial Travelers' Anti-
Trust League Began Work.

Traveling Committee of 5000
Will Organize Bryan
Clubs.

NEW YORK, Nov. 12.—At a meeting of the Commercial Travelers' Anti-Trust League today, W. C. Hoge, president of the league, in an address, advocated W. J. Bryan for the next Democratic presidential candidate and urged the members of the organization to assist in the establishment of clubs and work in behalf of Bryan.

Harry W. Walker, chairman of the executive committee, spoke along the same lines as Hoge.

It was voted that a committee be appointed, to consist of 5000 Democratic commercial travelers, to be known as the "traveling committee." It was pointed out that the members on their journeys over the United States will distribute literature and organize Bryan clubs.

It was also voted to establish a "recorder bureau," in which articles attacking the trusts will be kept, to be reprinted in pamphlet form for distribution.

At the meeting it was decided to give a dinner at least once a month, to which Democrats of prominence will be invited. It was announced that Bryan would be invited to be the guest at the first of these dinners.

FRIENDS OF HEARST GAVE HIM A BANQUET

Lieutenant Governor-elect and Other
Associates on the Ticket
Were Hosts.

NEW YORK, Nov. 12.—A complimentary dinner was given to William R. Hearst tonight at Delmonico's by Lewis Stuyvesant Chanler, W. S. Jackson, John S. Whalen, Julius Hauson and P. W. Skene and his associates on the Democratic and Independence League state tickets.

Besides Hearst, there were twenty-six other guests, all of whom were either associated with him during his recent campaign for governor, or were successful judicial candidates of the Independence League or other tickets.

Chanler presided, with Hearst at his right, and Recorder Goff, who was elected to a place on the Supreme court bench, at his left.

Hearst said he was proud of the cause that he and his associates had fought for and of his partial success. That cause, he declared, was right and would be recognized as such "as soon as the din and dust and confusion of the battle shall subside."

He knew that when the ideas he advocated during the campaign were thoroughly understood, they would not be considered dangerous or anarchistic, but would be recognized as just and patriotic. He concluded his speech with thanks to the various political elements who supported his candidacy, including "the independent Republicans" and the "independent labor voters."

Nathan Strass, in a speech, declared that if his brother, Oscar Strass, had not been selected to be secretary of commerce and labor in President Roosevelt's cabinet he would have slumped the State "and told the people what a man Mr. Hearst is."

MEXICAN SUSPECTS MAY BE EXTRADITED

They Are Charged With Murder
Committed in the Republic.

EL PASO, Texas, Nov. 12.—The cases of the alleged Mexican revolutionists under arrest here, upon complaint of the Mexican government, charging them with inciting a revolution, were taken up today by United States Commissioner Hoge, on a preliminary trial.

A surprise was sprung by the counsel for the Mexican government when the charge of murder was made also. The court was notified that application for extradition had been made for Villareal, the alleged head of the St. Louis, Missouri, junta, and Lacro Aguirre and Ramon Cana, supposed to be associates of Villareal. All were remanded by the commissioner without bail, pending the application by the government of Mexico for extradition.

The United States department of commerce and labor had just ordered the deportation of Villareal and he had sued out a writ of habeas corpus. Aguirre is charged with robbery and murder in Mexico in 1896, and Villareal with murder in Canulla two years ago.

WASHINGTON, Nov. 12.—Villareal, who is under arrest at El Paso, Texas, is to be deported to Mexico, where he will face charges of treason brought against him by the Mexican government.

After conference between officials of the state department, the department of justice and the department of commerce and labor, it was decided that Villareal should be sent back to his native country, because of crimes committed by him before his immigration to the United States, which made him an unfit person to enter this country.

Villareal was the leader of the Mexican revolutionary movement which gave utterance to its declarations through the newspaper Regeneracion.

ODESSA NEWSPAPERS SUBJECT TO COERCION

They Must Not Oppose Government
Candidates at the Approaching
Elections.

ODESSA, Nov. 12.—The publishers, editors and principal collaborators of the local newspapers have been obliged to sign an agreement not to discredit the government's arrangements for the parliamentary elections, nor generally to excite the people by making undesirable interpretations of the government's acts. The penalty is a heavy fine or three months' imprisonment, with the confiscation of the offending edition.

Further, all papers henceforth must be submitted to the military censorship.

The object of these measures, which will be applied also to other great provincial centers, is to prevent press agitation in opposition candidates.

SEATTLE'S EXPOSITION TO BEAT THEM ALL

Agent Sent to Chicago to Obtain
Pointers on What World's
Fairs Are.

CHICAGO, Nov. 12.—Considering the Chicago Columbian exposition of 1893 a criterion of what a world's fair ought to be, General James H. Metcalf, of Seattle, Wash., a representative of the Alaskan-Yukon Pacific exposition to be held in 1909 in Seattle, is here getting pointers on how to launch a world's fair.

General Metcalf says the Seattle business men raised \$700,000 each to promote the fair. The fair will represent an outlay of approximately \$10,000,000. It will occupy 250 acres bordering on Lake Washington. The gate will open June 1, 1909.

Illinois among them, has promised to erect a state building," said General Metcalf last night. "It seems like an exaggeration maybe, but the intention is to eclipse all previous attempts at world's fairs."

LAND AGENTS ARE DENIED FREE PASSES

Enormous Number of Fifty Thou-
sand Said to Be Thus Out
of Work.

CHICAGO, Nov. 12.—All western roads today announced that they would discontinue the practice of issuing free passes to land agents, and a majority of the 50,000 land agents who are registered with the western trunk line committee will find themselves out of work.

This action was taken because the Interstate commerce commission ruled that the issuance of such transportation was illegal. Under the new conditions, the methods employed in colonizing the country west of the Mississippi river must be revolutionized. Under the old system the routes were put down to a point where prospective settlers could look for new homes at a small cost.

SANTOS DUMONT HAS IMPROVED AEROPLANE

Skimmed Along at Thirty Miles an
Hour at Fifteen Feet Altitude.

PARIS, Nov. 12.—Santos Dumont made another series of experiments with his perfected aeroplane in the Bois de Boulogne today. At one time he skimmed along at a height of fifteen feet and at thirty miles an hour for 2.5 miles, when fear that his steering propeller would strike the cheering people forced him to descend. The right wing of his machine was slightly damaged. The principal change in the aeroplane today was that the side rudder rails were attached to the shoulders of Santos Dumont, who operated them with movements of the body. He was thus completely successful in preventing the revolving motion of the machine.

NEW YORK, Nov. 12.—The Rev. Dr. Henry Martin Burt, one of the best known Greek scholars in this country, and since 1902 dean of the New York university, died at his home in Yonkers yesterday at the age of 74 years.

DAYLIGHT ROBBERIES

Pittsburg Thugs Emboldened
By Immunity.

Woman Was Seized and Rob-
bed in Business Center—
Citizens Are Aroused.

PITTSBURG, Nov. 12.—The hold-up men and burglars who have terrorized this city for the past ten days, have apparently extended their operations into broad daylight, as well as working under cover of darkness.

At 6 o'clock this afternoon, at the corner of Sixth avenue and Wood streets, one of the most crowded spots in the heart of the city and within a few hundred feet of police headquarters, Mrs. A. G. Joykin was assaulted and robbed by two men, who made their escape. The men had been following the woman according to her statement, and as she turned the corner, they sprang. One hurried in front of her, while the other walked immediately behind. The latter grabbed her about the waist, while the man in front wrenched her muff and purse from her hands and made off. She was thrown to the sidewalk and sustained severe bruises.

In the meantime, the members of business firms are holding indignation meetings and drawing up petitions to the mayor and police officials.

LONG BEACH HOTEL DISASTER INQUIRY

Coroner's Jury Held No One Crimi-
nally Responsible for the
Loss of Life.

LONG BEACH, Cal., Nov. 12.—The coroner's jury investigating the cause of the collapse of the Hotel Beryl last Friday, which resulted in the death of two men, the injury of a score of others, this afternoon returned a verdict, finding that the accident was caused by the premature removal of the supports of the fifth floor and the proceeding with the construction of the roof before the supporting cement had time to harden sufficiently. The jury decided that no individual was criminally responsible.

Contractor Spaulding said the exact cause of the collapse had not been disclosed. He declined to say what, in his opinion, caused it. He said the steel construction of the floors and beams for the floors were faultless and had nothing to do with the collapse of the building. These were supplied by Kahn & Co. of Detroit, as were also the computations of strain on the floor, but these features did not contribute in any way toward the accident. The Detroit firm had nothing else to do with the construction of the building.

A Reliable Remedy for Croup.

Mrs. S. Rosenthal, of Turner, Michigan, says: "We have used Chamberlain's Cough Medicine for ourselves and children for many years and like it very much. I think it is the only remedy for croup and can highly recommend it." For sale by all druggists.

FOR TARIFF COMMISSION

Senator Cullom Will Move Its
Appointment.

Experts, and Not Politicians,
He Thinks, Should Revise
Schedules.

CHICAGO, Nov. 12.—A dispatch to the Tribune from Washington says: Immediately after congress convenes next month, Senator Cullom of Illinois will introduce a joint resolution in the senate providing for the appointment of an expert tariff commission to consider and report on those schedules which should be revised.

Such a commission, according to the views of the senator, should be an absolutely non-partisan and should treat the subject solely in accordance with the needs of business and labor interests of the country.

In the judgment of Senator Cullom, the time has come to eliminate the tariff from politics and to make it what it should be—a practical business proposition. He has no sympathy with the view of the "standard-bearers" that the tariff is like an endless chain, and that the modification of one schedule necessitates the remodeling of the entire system. What he wants is a law which will enable a change in a particular schedule, either increase or decrease, as the interests of the working people require.

Senator Cullom feels that if any action at all is had on the tariff it should be taken long before a presidential election, and thus eliminate the subject from a political campaign.

BANDIT CHIEF IS NOMINATED GOVERNOR

And Mohammedans at Fex Are Dis-
satisfied With Minister Gim-
me's Stay.

TANGIER, Nov. 12.—News of the official nomination of Raisuli, the bandit chief, to be governor of the town of Arzila and neighboring provinces, has been received here. This nomination is made by the sultan. The territory under Raisuli's authority extends from Tangier to M. Arish.

It is reported here that Gummere, the American minister, paid what is believed to be his final visit to the sultan four days ago at Fex. Mohammedans at Fex are beginning to display dissatisfaction with the prolonged sojourn in Fex of the mission of which Gummere is the head.

MRS. RUSSELL SAGE TO GIVE MONEY AWAY

Bulk of Her Fortune Will Go to the
Needy Who Are to Proud
to Beg.

NEW YORK, Nov. 12.—Mrs. Russell Sage will give away the bulk of a fortune of about \$80,000,000 bequeathed to her by her late husband to individuals whom she considers worthy, who, through no fault of their own, are unfortunate as to need assistance and too proud to ask. It will not be given to pauper churches, nor to those who write begging letters. Mrs. Sage said she would do all she can for struggling churches and institutions devoted to the care of the needy and sick.

"I shall keep only sufficient of the fortune left to me by my husband to live quietly and comfortably," Mrs. Sage said today.

GOVERNOR HOCH HAS A PLURALITY OF OFFICIAL RETURNS

TOPEKA, Kan., Nov. 12.—Of-
ficial returns from 103 counties
of a total of 105 in the state give
Governor Hoch a plurality of
1084 votes over Colonel A. W.
Harris, Democrat. The returns
from the two missing counties
will change these figures but
slightly. Governor Hoch did not
receive a majority of all votes
cast for governor, but under the
laws of Kansas a plurality is all
that is necessary to elect.

King George's Visit to Rome.

ROME, Nov. 12.—The Vatican authorities through the Archbishop of Athens, have officially requested to the King of Greece visiting King Victor Emmanuel, Nov. 23rd, and remaining here four days. If King George desires to see the pope the latter will willingly accede to his request and will follow the same ceremonial as observed at the time of the visit of King Edward.

San Francisco Louters Arrested.

SAN FRANCISCO, Nov. 12.—Caught looting a cigar store in this city today, John Kinsella, and James McCarthy, young men were captured after a running pistol fight. When the robbers were surprised at work they opened fire on the officers, but when they found that the police had the advantage they dropped their weapons and surrendered.

John Mitchell Will Serve.

INDIANAPOLIS, Nov. 12.—All doubts as to whether President Mitchell intended continuing as president of the United Mine Workers of America have been set at rest by the announcement that Mitchell has been renominated for the office and that he will permit the renomination to stand.

DALLAS TEX., Nov. 12.—R. Fealy,

general auditor of the Texas & Pacific railroad system, shot himself at his home here today. Whether the shooting was accidental or premeditated is not known. Fealy is in a dazed condition and cannot talk. His condition is serious.

Be Charitable
To your horse as well as to yourself.
You need not suffer from pains of any sort—your horses need not suffer. Try a bottle of Ballard's Snow Liniment. It cures all pains. J. M. Roberts, Bakerfield, Mo., writes: "I have used your liniment for ten years and find it to be the best I have ever used for man or beast." Sold by Geo. H. Monroe.

Notice of Sale of School Bonds.
Notice is hereby given that the Board of Supervisors of Fresno county, California, will receive sealed bids up to 2 o'clock p. m. of Tuesday, November 20, 1906, for the purchase of school bonds of the Fresno Colony School district of Fresno county, aggregating the sum of One Thousand Dollars of the denomination of Two Hundred and Fifty Dollars each bearing interest at the rate of six per cent per annum, said interest payable annually on the 12th day of November of each year. Said bonds are numbered consecutively from one to four inclusive and are payable as follows:

Bond No. 1—Two hundred and fifty dollars payable November 12th, 1907.
Bond No. 2—Two hundred and fifty dollars payable

MOVEMENT TO MAKE SAN JOAQUIN NAVIGABLE MUNICIPAL PROBLEMS

Panoramic view of the San Joaquin river below the Miller and Lux dam, showing the small amount of water that gets past the dam.

Tomorrow evening an important meeting of the Chamber of Commerce will be held to discuss with representatives from the Stockton Chamber of Commerce, the subject of dredging the San Joaquin river. Congressman Randall, chairman of the house committee on rivers and harbors, recently visited California and inspected the San Joaquin river. He was entertained by the Stockton Chamber of Commerce, and gave the assurance that federal aid might be obtained for this great work by a united effort. It is with that idea that the cooperation of the Fresno chamber is being sought.

But Fresno is particularly interested in this subject itself, as a means to attain terminal rates. If the San Joaquin can be made navigable to Firebaugh, say, an electric road or a canal to that point would give Fresno water competition and resultant terminal rates.

To make the river navigable, however, is a stupendous undertaking. The Miller and Lux dam has practically cut off the water supply to be diverted to the fields and the system of West side canals is constantly being enlarged. The Republican this morning presents a panoramic view of the river showing

the effect of this dam. The view was taken by Delbert Gray of the Terminal Rate Committee, looking down stream from the Firebaugh bridge. This is a mile and a half below the Miller and Lux dam. The picture was taken on September 15th last. The full width of the picture is from bank to bank and yet the actual flow of water is seen in the left side of the picture, the rest being sand. To make the river navigable, the first thing necessary would be the removal of the dam and then a vast amount of dredging would be necessary.

RAISIN SEEDER LITIGATION

Arguments Being Made Before Judge Wellborn.

Trial of S. L. Hogue on Embellishment Charge Is Again Postponed.

Argument of the suit of the United States Seeded Raisin Company against the Selma Fruit Company and the Valley Foundry and Machine Works of Fresno was the principal matter that came before the session of the United States court, which opened yesterday for the November term. The grand jury for next year was also drawn. Besides Judge Wellborn, the officials in attendance at this sitting are United States Attorney Oscar Lawlor and Clerks Van Dyke and Williams. The sitting will probably occupy several days, as there are a number of civil matters to be heard. When the argument in the seedling patent cases closes today, the water litigation cases, in which Nares and Saunders and other contestants along the Kings river are interested, will be taken up.

The trial of S. L. Hogue, formerly deputy internal revenue collector at this point, on a charge of embezzlement was postponed to the May term on motion of his attorney, Frank Short, over the protest of the United

States attorney. The postponement was secured on the ground that Mr. Short was busy in Visalia last week and did not know until last Saturday that the trial was to take place at this time. The venue of juryman who had been called for this case was accordingly dismissed.

New Grand Jury.

The new grand jury was chosen as follows: W. J. Kittrell, foreman; A. Abbott, J. J. Bowen, Thomas Dawley, G. W. Fuller, W. H. Harris, J. H. Holland, Richard Hyde, B. E. Hutchinson, A. Harris, H. E. Johnson, B. R. Maginnis, P. B. Skinner, L. Solomon, N. Tuzi, F. B. Stuckdale, C. W. Musick, H. P. Reese, M. Mueller, E. Lathrop, D. E. Heggland, A. C. Rainey, George H. Bonney.

These men met for a few minutes during the afternoon, and will have another session this morning when the attorney for the government will have a number of matters to present to them.

The most important matter during the day was the argument of the seedling patent suits. The case was begun by Attorney John H. Miller of San Francisco, acting for the United States company, the holding company which bought up all the seedling patents and lets out the privileges of using them to the growers in this city. In opening, Mr. Miller declared that this was an ordinary patent dispute. Here was a case of a patent which had revolutionized an industry and added a food product to the menu of the world. He pointed out the peculiar nature of the machines used, in contradiction of the contention of the defendants that any mechanic could have devised such a machine, and then narrated the history of the Pettit and Ledoux patents, now controlled by his clients. All other attempts at seedling machines, he said, had amounted to nothing, and the defendant companies had followed absolutely the patented model.

The case will be continued at 10:30 o'clock this morning, when William Boone of San Francisco will present the case for the defendants. It is presumed that the California Fruit Growers' association, for whom the Selma Fruit Company does seedling, is behind the defense in this case. The Foundry company is being sued for making the machines.

A number of attorneys were admitted to practice in the federal court, including E. H. Blair of Merced, John M. Foreman of Mariposa and Francis A. Free of Modesto.

Damages for Child's Death.

A suit has been begun against the Atchison, Topeka and Santa Fe Railway because of carelessness that resulted in the death of a child last March. Peter Manolan, a resident of Salinas in Tulare county, asks \$5000 damages in a suit in the federal court commenced yesterday. He states that his wife got on the train to come to Fresno to see physicians, taking with her two small children, one a nursing child. She got on the train, and as the child was being handed up to her, the train started. The conductor refused to stop the train to permit her to get the child, and the next conductor also refused to take the baby north. In consequence of not seeing its mother for twenty-seven hours, the child died.

SAN DIEGO PLANS FOR RAILROAD TO COLORADO RIVER

SAN DIEGO, Nov. 12.—At a meeting of the common council tonight an ordinance was passed submitting three amendments to the city charter to a vote of the people on January 29th. The purpose of the amendments is to empower the city to vote bonds for building a railway in the Colorado river and to authorize the city to construct such road should the bonds be voted.

Outline of Program for League Meeting.

City Lighting Will Receive Prominent Place on the Program.

Secretary H. A. Mason of the League of California Municipalities arrived in Fresno yesterday afternoon to look after certain arrangements for the holding of the annual convention of the league in this city in December. Incidentally he brought with him an outline of what the program of the convention will be.

The league does not have a set program by days, but certain subjects are set forth for informal discussion. It is felt that by these talks more good can be done, for the most part, than by set papers. The first matter to be taken up in the session of three days is the consideration of legislative measures. Some of the topics are as follows:

Proposed law for the regulation of weeds. Is it advisable to abolish license licenses? Do cities need a higher tax rate? Can the so-called "shade tree act" be amended and made useful? The appointment or election of marshals and clerks. Can officers be consolidated to advantage? A law providing for the deposit of public funds. Additional suggestions.

Other topics are as follows:

Public Lighting: The construction and operation of municipal plants and advantages of same; cost of lighting by public and private plants; four delegates will be prepared to give reports in this city, schedules, kind and size of light, etc.; specifications for street lighting; the best kind of lamps for streets; how lamps should be placed; boulevard lighting; more or less technical information on this subject. The above topics have been assigned to J. H. Kahn, city electrician of Alameda and F. A. Worthley, city electrician of Riverside, for elucidation.

Street Construction: Testing road materials; the operation of municipal truck crushers; by representatives from Riverside, Grass Valley, Santa Rosa, Redlands and other places; street cleaning, free for all discussion; anything new in connection with oil roads.

Garbage Disposal: Has anything been learned in this connection by representatives from Sacramento and Los Angeles?

The City Beautiful: The improvement of station grounds, by City Engineer Bixby, Palo Alto; the value of uniform tree planting; by some one from Pomona, and any one else who can speak from experience; why not a tree commission in all towns? what city officials can do; what commercial organizations can do, by Mr. Edwards of the California promotion committee; what the women's organizations can do, by Mrs. Sherman of Fresno.

Observations in Eastern Cities: Mayor Mott of Oakland, Mayor Waterhouse of Pasadena and Trustee Ing of Sacramento and others who may have made recent observations.

Whittles 1000 things that tend to make life easier for the officials and contribute to efficiency, by the secretary.

It is expected that the first session of the convention will open late in the morning of Dec. 12th. An address of welcome will be given by Mayor Lyon of Fresno and F. H. Brown of San Jose, president of the league, will respond. In case he is unable to be present, the vice president, L. W. Clark of Redlands, will preside. The report of the secretary for the year will follow.

Mr. Mason yesterday afternoon conferred with Mayor Lyon regarding the convention. It is still hoped that the sessions may be held in the new city hall, and it may be that a heating plant will be installed in time for it. Mr. Mason returns to San Jose today.

SUICIDE WAS DOCTOR WHO DROPPED IN WORLD

F. C. Eddy Turns Out to Be Dr. Joseph Glasen, a Berlin University Graduate.

Later inquiries into the antecedents of the man who committed suicide in a rooming house on Saturday night, reveal the fact that Eddy was really Joseph Glasen, a graduate physician, who came to this country after completing a medical course in Berlin. Troubles induced the unfortunate man to acquire the drug habit, and excessive use of narcotics appear to have undermined his health until he became mentally unbalanced at times. He was about 35 years of age.

About one year ago, while attached to a hospital in San Francisco, he met a pretty young trained nurse and gained her affections during their professional association in the wards. They were married and lived happily together until the disaster. In the time they lost their comfortable little home near the Golden Gate park, but he and his wife went to work, finding their services in alleviating the sufferings of the ill and dying. Soon he lost his wife, the young woman dying of fatigue and exposure. From the hour of her death he became a changed man. He grew nervous and irritable, and finally resorted to cocaine as a sedative. He became a hopeless neurotic and was unable to abandon the habit.

A couple of months ago he came here and went to work in a vineyard, but soon obtained a position at the County hospital, where he met Mrs. Bryant. The two met, although the woman declares that she never encouraged his advances. She was living alone and Glasen became enamored of her. On several occasions he asked her to marry him, and told her that he would fall into some money on the death of a relative. Mrs. Bryant rejected him and told him that it would be impossible to wed him. She claims to have believed that he was mentally unbalanced, and never took him seriously.

The remains of the dead man are now in the morgue of Stephens & Bean and have attracted the interest of a number of callers. An effort is being made to locate his relatives, but if nothing is heard today the body will be interred by the county.

CANVASSING OF THE VOTE

Hickman's Election Assured By Official Count.

No Change Thus Far in Smith-Ashbrook Contest—Ten Precincts Canvassed.

Like a twice-told tale is the official canvass of the election returns by the Board of Supervisors, which was begun yesterday. At the time of adjournment, after six hours work, ten precincts had been canvassed. No important changes over the semi-official returns were noted. The count finally settled the election of Hickman as county treasurer. As pointed out several days ago in the Republican the semi-official returns from Fresno No. 12 were incorrectly given in the semi-official returns, where he was credited with 117. The returns posted at the polling place showed 149, and as this latter figure represented the party vote in the precinct and as Harrell did not run ahead of his party vote in the precinct, the polling place figure was obviously correct. The official count yesterday confirmed the fact.

The official count, it was taken, could only affect the two close contests, that of treasurer and justice of the peace in the Third township. Both M. V. Ashbrook and G. W. Smith were present to watch things, and candidates for treasurer also had representatives present. No. 12 pretty well settled the treasurer'ship, and the count to date made no change in the justice contest.

At the rate of count yesterday, ten precincts, it will take eight days to canvass the returns.

last the returns, but the members of the board expressed the opinion that the count will proceed faster today. The precincts canvassed yesterday were Fresno Nos. 2, 3, 4, 5, 6, 11 and 12, Hughes Creek, Pleasant Valley and Sanger No. 2.

The differences from the semi-official returns, not already noted, were: Harman gained 25 in Fresno No. 9, D. F. Church gained 5 in No. 11, La Rue gained 5 in Pleasant Valley, Bell gained 1 in Fresno No. 12, Puleston gained 1 in Fresno No. 3, and Short lost 6 in Fresno No. 4.

Pennsylvania Road's Big Order.

PHILADELPHIA, Nov. 12.—Six hundred steel passenger cars are to be built for the Pennsylvania railroad during the next year. Space for 350 cars has been reserved with the American Car and Foundry company. The total cost is estimated at \$6,000,000. The company has also ordered twenty-five new freight engines.

Business Ideas

Nowadays are based on Truth and Honor. We buy in large quantities from factories only, pay cash for our goods, besides we pay rent which we find much cheaper than owning a building, with the interest on the money invested, the taxes and high insurance, and therefore we can afford to and do sell cheaper than any firm in California. Compare our Goods. Quality and prices with others and you will find the Truth and Honor.

Plain Figures. One price. Cash Figures. Easy terms. No Second-Hand Goods. Freight paid to all points. Money back if not satisfactory. All goods guaranteed.

Wormser Furniture Co.

Have Been, Are Now, and Always Will Be "THE LEADERS."

We have started a determined campaign for a big Thanksgiving business. We have carefully selected the needed goods and made the prices attractive enough to keep the interest up to an exciting point.

You will find this a very convenient store for your Thanksgiving shopping. Everything to eat and wear under one roof. Everything of guaranteed quality, and priced so that there is pleasure in purchasing.

The volume of business in this store has reached such an immensity that we can afford to sell goods closer than ordinary stores and still make enough to meet the wants demanded by successful store keeping.

The Chinese proverb that says, "Small profits on large capital are after all great," is applicable here—if you also add to large capital, a large business.

For the next three weeks things will hum in this busy store.

We have provided a tempting array of bargains, so good that no economical person can afford to stay away from the store.

Women's Suits at \$17.50, Worth Up to \$25.

They are new arrivals and are very handsome. If we wanted to sell them in the regular way we could get full price for them. It would mean more time and energy, so in order to make women talk about our cloak and suit store, to have them help advertise us, we have placed a price on these suits that will sell them at first sight.

They are very catchy, dressy garments: all wool, of course, some in plain serges, some in mannish mixtures, some in shadow plaids in light, medium or dark effects; some trimmed with wide silk, military braid; pony, tight fitting, or even jackets; plaited or circular skirts.

Silk Rubber Auto Coats \$25

We have sold several dozens of them at \$25 when other stores were asking \$30 and \$35.

They make an ideal garment for wet weather—very stylish, very serviceable, and absolutely waterproof. For traveling, automobile driving or driving they are the right thing. Useful in wear over evening gowns in going to or coming from social functions. 50 inches long; loose backs; new sleeves.

Many Men's \$15 Suits For \$11.95

You will see some of them in one of the Mariposa-street show windows. One of these are genuine clothing bargains. When we tell you this is a fact that can not be controverted. Less conservative stores would claim a greater value for them—perhaps justly too.

We are showing them in the single or double breasted styles in medium or winter weights and in all the popular suitings.

If you are interested, we shall be glad to show them. You know there is never any urging to buy in this store.

Silks Worth Coming For

Four excellent specials are ready today, and they emphasize the leadership of this store in real value giving. You may safely depend upon the good wear of these silks. There's nothing cheap or flimsy about them—they are glossy, durable and properly dyed.

36 inch Taffeta silk; yarn dyed; full width; soft, lustrous finish. Suitable for either waists or suitings. \$1.25 silks. Yard **98c**

36 inch Peau de Soie silk; a very heavy and lustrous weave; firm in texture and rich in good looks and wear. It has all the glossiness of a Duchesse satin. A quality that always sells at \$1.75 a yard. Today for **\$1.39**

27 inch black taffeta; heavy body; high finish; plenty of rustle to this weave. An excellent silk for underskirts. \$1 goods. Yard **79c**

19 inch Chiffon taffeta; all pure silk, every thread. We have always sold this grade at 65c a yard, but a lucky chance has placed us in possession of this lot that we will sell at yard **48c**

Thanksgiving Millinery \$4.50--\$5.98

There are a large number of charming hats ready for this week's selling at these popular prices.

The prices we ask are not by any means indicative of the real value of the hats. We are making a special effort to increase the millinery sales, and we are using the most powerful means at our commands—good goods and very low prices.

\$5.98—Charming hat in the large shapes. Among them are some dress hats in silk finished velvet edged with shirred silk, trimmed with silk ribbons, ornaments and genuine ostrich tips. The good colors are all represented.

\$4.50—Women's stylish, round crown hats, those that dip sharply in the front; ultra stylish shapes; hand made hats of silk velvet, and all silk braid, trimmed with wings, silk velvet and a large buckle. Rich shades of brown, green, watermelon red, black; several shades of gray, etc.
